No. 668. Delixi Road. Nanxiang Industrial Development Zone, Shanghai, PRC. Elang provides two transmission choices for air compressors: direct drive and belt drive. A 30hp compressor delivers airflow of 2.5m³/min at a working pressure of 13 bar.

What is the warranty of Denair screw air compressor?

We make sure that customer will get the best energy saving screw air compressor with warranty up to 5 years. is a listed enterprise and is considered as one of the leading manufacturer of air and gas compressor products with hi-tech production facility in Shanghai, China. DENAIR has 25 branches and subsidiaries with over 500 employees.

What is a belt-driven screw air compressor?

The main difference between a belt-driven screw air compressor and a direct-driven screw air compressor lies in the way they transfer power from the motor to the compressor element. In a belt-driven screw air compressor, the power from the electric motor is transmitted to the compressor element through a system of belts and pulleys.

How many rotors does a screw air compressor have?

The compressor components in a screw air compressor are composed of two rotors, commonly referred to as male and female rotors, which compress air during rotation.
