

28 type rock drill air leg piston head

Product Description: Air leg rock drill is rock drilling equipment with high high impact energy, and lower air consumption, it is widely fitting for coal mine, ...

Buffer Piston for Rock Drill, Find Details and Price about Pneumatic Rock Drill Air Leg Rock Drill from Buffer Piston for Rock Drill - Luoyang Zuanshan Machinery Equipment Co., Ltd.

Specifications After-sales Service 24*7 Service Warranty 1 Year Certification CE, ISO 9001:2000 Condition New Motor Pneumatic Drill Hole Diameter 34-45mm Drill Hole Depth 5m (Max) Bit ...

It is an efficient, energy saving rock drill. The BD-YT24 Air Leg rock drill has lower noise, higher durability, faster speeds and a lower failure rate than other comparable drills.

Other attributes Warranty 3 months Weight (KG) 1 Place of Origin Shandong, China Video outgoing-inspection Provided Machinery Test Report Provided Brand Name SDDRILLTOOLS ...

The YT-28 pneumatic drill USES modern rock drill technology, compare to the same type products, it has the advantages that high efficiency, small noise, light weight, better economy ...

The YT28 air-leg rock drill is a kind of high-efficiency, energy-saving and environmentally friendly rock drilling equipment. Compared with similar ...

The YT28 pneumatic drill adopts the design technology of modern rock drill and compares with similar products it has high efficiency, low noise, light weight, good economic effect and fast ...

Short Description: The YT28 pneumatic drill adopts the design technology of modern rock drill and compares with similar products it has high efficiency, low noise, light weight, good economic ...

The YT28 air leg rock drill is most suitable for dry drilling downward and inclined blast holes in medium hard and hard rock with a hardness of F8-18. An ideal tool for rock drill operations in ...

YT28 Air Leg Rock Drills The YT28 air leg rock drills is used to drill horizontal and inclined blast holes in medium-hard rock with a hardness of f=8~18. It may ...

The YT28 air-leg rock drill is a new type of high-efficiency rock drilling machine. It is widely used in drilling blasting holes in mine tunnel excavation and various ...

The YT28 Hand Held Pneumatic Air Leg Rock Drill is a powerful and efficient drilling tool commonly used

28 type rock drill air leg piston head

in mining, quarrying, and construction applications. It is designed with a ...

The YT28 air-leg rock drill is a new type of high-efficiency rock drilling machine. It is widely used in drilling blasting holes in mine tunnel excavation and various rock drilling operations.

Rock drills work on the principle of impact crushing. During operation, the piston performs high-frequency reciprocating motion and continuously impacts the drill tail. Under the action of the ...

Description Yt28 air leg rock drill Model: YT28 Working Pressure: 0.4-0.63 MPa Impact Frequency: ≥ 37 Hz Air Pipe Inner Diameter: 25 mm Air Consumption: ≤ 81 L/s Piston Stroke: ...

The YT28 air-leg rock drill is a kind of high-efficiency, energy-saving and environmentally friendly rock drilling equipment. Compared with similar pneumatic products, the YT28 air-leg rock drill ...

YT29A Pusher Leg rock drill (Jack Leg) YT29A air leg rock drill jack hammer/ bosch breaker hammer power tools : 1.Good quality with strict quality system ...

YT28 air-leg rock drill is a new type of high-speed rock drilling machinery, mainly suitable for railway, highway, mining and other roadway excavation and ...

YT28 air leg rock drill is mainly used for blasting holes and other drilling works in a quarries, railway construction, water conservancy construction and defence project facility. Further, it is ...

The Rukton Minerals YT28 Air Leg Rock Drill is the most modern drilling machine which uses a modern design techniques, compared with the same type of product, with high efficiency, low ...

Our pusher legs and stoper rock drills cover all construction, tunnelling and mining applications in different rock formations. They are robust designed, ...

Short Description: The YT28 pneumatic drill adopts the design technology of modern rock drill and compares with similar products it has high efficiency, low ...

The air leg type rock drill is characterized in that a spring and a sliding plug are movably sleeved in a piston, a bent air hole is formed in the sliding plug, the bent air hole is C-shaped, the ...

Highly efficient in medium to hard rock Long stroke, high impact energy Large piston diameter makes it very efficient even at low air pressure Powerful rifle bar rotation mechanism Pusher ...

This rock drill is a top-hammer type rock drilling machine that is comprised of impacting mechanism, flow distribution mechanism, drill rotating mechanism, debris discharge ...

28 type rock drill air leg piston head

The YT28 air leg rock drill is most suitable for dry drilling downward and inclined blast holes in medium hard and hard rock with a hardness of F8-18. An ideal ...

Rock drills work on the principle of impact crushing. During operation, the piston performs high-frequency reciprocating motion and continuously impacts the ...

When drilling deep holes, must use different lengths drill rods of different lengths, and use short drill rods at the beginning. The air leg rock drill consists of two main parts, a jack ...

YT28 Air-leg Rock Drill most fit for drilling horizontal and inclined blast holes in medium-hard and hard rock with a hardness of $f=8\sim 18$. It may also be used with for making roof-bolting holes. ...

Rock drills of this general type incorporating rifle-bar rotation can be as small as a miniature drill weighing 2 to 3 kg, consuming 12 l/s of air, up to the large rig-mounted drills weighing 150 kg ...
