Which rotary screw compressors are used in Australia?

Most rotary screw compressors sold in Australia use a single stage rotary screw air-end. Sullair has a unique, proven 2-stage technology that employs two-stage VOC air-ends in series. This unique technology is the class leader in energy saving technology. Power advantage of 11 to 13 % over equivalently sized single-stage compressors.

What is a rotary screw compressor?

Sullair's TS Range (two-stage rotary screw stationary compressors) offers high volumes of compressed air for large air applications (75-450kW). Most rotary screw compressors sold in Australia use a single stage rotary screw air-end. Sullair has a unique, proven 2-stage technology that employs two-stage VOC air-ends in series.

What is a screw air compressor?

Screw air compressors are capable of delivering a significant volume of air, eliminating the necessity for a reservoir tank unlike reciprocating (or piston type) compressors of similar size. Furthermore, they can operate at 100% capacity, allowing for continuous operation as required.

What types of air compressors are available?

Browse our selection of air compressors here: Pilot Air Screw Air Compressors - High-performance, durable screw compressors ideal for heavy-duty applications. Lincoln Screw Air Compressors - Reliable and energy-efficient compressors designed for continuous operation.
