What is Bab oil field?

The Bab oil field, also known as the Murban Bab oil field, is the biggest onshore oil field in Abu Dhabi and the oldest operating field in the United Arab Emirates (UAE). Owned and operated by ADNOC Onshore, a subsidiary of Abu Dhabi National Oil Company (ADNOC), the giant oil field has been producing since the early 1960s.

Who has been involved in the expansion of Bab oil field?

JGC Corporation, Technip-Coflexip, and Petrofac were among the contractors engaged in the previous expansion projects at the Bab onshore integrated facility. Bab, also known as Murban Bab, is the biggest onshore oil field in Abu Dhabi and the oldest oil field in the United Arab Emirates (UAE).

Who are the key contractors involved in the Bab project?

Some of the key contractors involved in the Bab project as follows. ADNOC Onshore (ADNOC), formerly Abu Dhabi Company for Onshore Petroleum Operations Ltd, a subsidiary of Abu Dhabi National Oil Co, is engaged in exploration and production of oil and gas resources. The company provides onshore drilling services.

Who is Bab engineering?

At BAB Engineering, we are leaders in innovative hydraulic crane loading decks and custom steel fabrication solutions for high-rise construction projects. Our extendable crane loading decks are designed to optimize safety, efficiency, and convenience while offering unmatched performance for material handling.

Will ADNOC Onshore expand the Bab field?

The expansion of the Bab field comes two years after ADNOC Onshore awarded a contract to increase the capacity of the field from 420,000 to 450,000 bpd by 2020. Archirodon will build the facilities and infrastructure required to sustain long-term crude oil production capacity of the field at 485,000 barrels per day.

Why did ADNOC upgrade the Bab field?

Yaser Saeed Al Mazrouei, CEO of ADNOC Onshore, said: "The Bab field already plays an important role in supporting ADNOC's production capacity mandates and this upgrade complements ADNOC's upstream growth plans."
