Why should you choose Kaishan screw air compressors?

Kaishan's Screw Air Compressors (High pressure portable series) helps save oil consumption by 100 L per day. Portable Screw Air Compressors are widely used in various industries for mines, water conservation and supplies, shipbuilding, city development, energy development, military services, and others.

Why should you choose Huitong Xinda air compressors?

These companies trust Huitong Xinda air compressors to perform in the most demanding industries on the planet. Huitong Xinda engineers the highest quality rotary screw air compressors that enable us to build a better, more efficient future.

What are the advantages of Boreas BK series screw compressors?

Boreas BK series screw compressors satisfy requirements of the masses of users in the field of low-power, low priced screw compressors. Less quick-wear parts, compact structure and good stability. Man-machine interface display control system. Particula

What is the difference between Boreas BK and LG series screw air compressor?

LG Series Diesel Protoble Screw Air Compressor adopts 0-100% infinitely variable control of displacement to realize optimal energy saving effect. Boreas BK series screw air compressors satisfy requirements of the masses of users in the field of low-power, high cost-effective screw air compressors.

Why should you choose a BK series screw compressor?

The BK series screw compressors meet the demand of users seeking low-power, cost-effective screw compressors. With fewer wearing parts, a compact structure, and excellent stability, the user interface display control system offers precise and simple operation, allowing the operational status to be clear at a glance.

What is a rotary screw air compressor?

A rotary screw air compressor is a reliable, efficient form of air compression technology that uses rotating helical screws to compress air. The compression process is relatively straightforward. A quantity of ambient air comes in through a valve and is trapped in the compression chamber between two helical rotors that interlock.
