

# Chad ranks top ten in rock drill production

Why is Chad drilling?

The reason: Chad is drilling. In efforts to expand exploration and boost domestic production, the land-locked Central African nation is proving that focusing on basics is a recipe for success. Drilling efforts have translated in increased production and oil revenues, despite several industry setbacks.

How much oil does Chad have?

Chad ranks as the tenth-largest oil reserve holder among African countries, with 1.5 billion barrels of proven reserves as of 2018 and production of over 140,000 barrels per day in 2020. Petroleum is Chad's primary source of public revenue, and around 90 percent of oil production is exported.

Should Chad invest in oil & gas?

These investments may also provide an opportunity for the midstream and downstream players in the country's oil and gas market. Chad ranks as the 10th-largest oil reserve holder among African countries. Petroleum is Chad's primary source of public revenue, and around 90% of oil production is exported.

How many oil rigs does Chad have?

With seven rigs deployed on its territory since September 2018 according to Baker Hughes GE, Chad counts more rigs than most African petroleum provinces. It is more than Angola, sub-Saharan Africa's second largest producer of oil. It is almost more than Congo, sub-Saharan Africa's third largest producer.

When will the Great Wall Drilling Chad project resume production?

As early as April 2021, with the recovery of international oil prices, the Great Wall Drilling Chad project resumed production and the two new drilling rigs of the GW40 and GW41 teams ushered in their first start-ups.

Who makes the oil in Chad?

Its oil production is dominated by the China National Petroleum Company in Chad (CNPCIC), the ExxonMobil-led Esso Exploration & Production Chad Inc. The pipelines are mostly clustered in the country's southern region, with one of the pipelines connecting Cameroon with Chad.
