

Electric air compressor 10mpa

What is a 10 HP air compressor pump?

A 10 HP air compressor pump is a device that compresses air using a 10 horsepower motor. This specific model is a 4-cylinder, 2-stage pump with 43 CFM displacement, providing 34 CFM at 175 PSI and 38 CFM at 100 PSI.

What is a Emax silent air compressor?

The EMAX Silent Air Series 10 HP 80 Gal. 2-stage, single phase air compressor is designed for up to 60,000-hours of use with proper maintenance. This EMAX air compressor is equipped with an all-cast iron splash lubricated pump producing 38 CFM at 100 PSI. This unit features our patented Whisper100 silent air system already installed.

Can I return an Emax air compressor?

This item is only returnable in store. Return this item within 30 days of purchase. The EMAX Silent Air Series 10 HP 80 Gal. 2-stage, single phase air compressor is designed for up to 60,000-hours of use with proper maintenance. This EMAX air compressor is equipped with an all-cast iron splash lubricated pump producing 38 CFM at 100 PSI.

What lubricated pump does the Emax air compressor have?

This EMAX air compressor is equipped with an all-cast iron splash lubricated pump producing 38 CFM at 100 PSI. This unit features our patented Whisper100 silent air system already installed. The Whisper100 dissipates compressor intake noise by channeling the intake air through a series of baffle plates.

Is Emax a good air compressor?

Customers say the EMAX air compressor is a powerful and quiet machine that excels in performance, particularly for demanding tasks like sandblasting and automotive work. Many appreciate its quick recovery time and robust build quality, highlighting features such as the automatic drain and low noise levels.
