What is a GA oil injected screw compressor?

GA 30+-90/GA 37-110 VSD+ (30-110 kW/40-150 hp) GA 180-315 VSD+ Our GA oil-injected screw compressors bring industry-leading performance, flexible operation and high productivity, reduced energy costs at a minimal cost of ownership. A wide range of compressors enables you to find the air solution that perfectly matches your specific requirements.

What is a portable air compressor?

Electric air compressors are units that plug into an electrical outlet or units that run on a battery. Portable air compressors inflate tires and supply power to air tools. Stationary air compressors install in a fixed location and are often connected to a distributed air system.

How many PSI does an air compressor have?

This air compressor has a high air flow of 25 CFM at 90 PSI to power multiple, high demand air tools. Operating on three-phase electrical power, this air compressor's industrial-rated NEMA motor drives a long-life, cast iron, two-stage pump.

What brands of air compressors does Northern Tool & Equipment sell?

Northern Tool +Equipment carries a variety of stationary electric air compressors from name brands such as North Star, Quincy Compressor, Ingersoll Rand, Dewalt, and more. While browsing our selection, be sure to consider each unit's electrical power requirements, horsepower rating, and the CFM requirements of your air tools.

What type of air compressor should I buy?

Did You Find What You Were Looking For? Stationary air compressors are an excellent choice for home or professional shops that do not require any movement of the machine. Electric models are especially popular due to minimal maintenance requirements, suitability for indoor use, and quieter operation than gasoline-powered units.
