

# Electric down-the-hole drill and pneumatic

What is a blasthole rig & Drill?

Blasthole rigs and drills don't need much explanation. They're used for drilling a hole into the surface of the rock, packing the hole with explosives and then detonating those explosives in the blasthole to break up rock and hard minerals to make it easier to remove.

Why should you buy a blasthole drill?

Built tough, our top-hammer, Down the Hole (DTH) and pneumatic drills are equipped with features that maximize efficiency to assure high-performance at a low operating cost. Operators appreciate the high performance and reliability of our blasthole drills, packed with features that make operation easy and reduce the worries of downtime.

What makes our drills unique?

Our drills are equipped with the latest innovations to ensure reliability, safety and ease of operation, including heavy duty undercarriages, high output compressors and dust collectors, advanced hydraulic and pneumatic systems and comfortable cabs. We constantly innovate to keep up with the needs of the demanding industry.

America West's truck-mounted power pole drill is a much preferred and cost-effective method for drilling large diameter power pole holes. The combination ...

? From open-pit mine blasting to large stone engineering and hydropower projects, the QZDX series delivers efficiency, flexibility, and durability. Shared Features Crawler chassis for easy ...

The Electric and Pneumatic Down The Hole Drill Machine is a new type of energy-saving and high-efficiency rock drilling equipment of our company. It is ...

Percussive-rotary drilling is an effective method for the hard rock drilling. As hydraulic and pneumatic hammers have many problems especially in the deep core drilling, a new ...

We manufacture and supply KQD70 Electric and Pneumatic Down-the-hole Drill at a factory competitive price with features: 1. Hole diameter 60-80mm, 2. Hole depth 15m or More, 3. Air ...

3. Drilling speed: 5-8m/h 4. Max depth: 30m 5. TW: 250kg Down The Hole Drilling machine BQ90 series drill is a new model drill, we developed it specially used for stone quarry and the drill ...

Kaishan KQD150B Down The Hole Drill Machine is robust performance in hard rock, fuel efficiency, wide drilling range & versatility, and easy maintenance.

# Electric down-the-hole drill and pneumatic

Down-the-hole drilling is a crucial process in the well drilling industry. It involves using a drill and hammer drill to create boreholes for various purposes. Well ...

Product Description Description& colon;Down-the-Hole Drill Machines are mainly used for perforation working during stone quarrying& period; Full Pneumatic Down-The-Hole Drill ...

Drills excel at make round holes in a material, like wood, or for driving fasteners, like screws. Most drills achieve this by rotating a drill or ...

Pneumatic & Electric D-T-H Drilling Driller [QDZ 65-90B] Mainly used primary and secondary drilling in all stone quarries. Available for vertical, horizontal and slant drilling.

RH560 Down-the-hole hammers RH560 DTH hammer is a robust, reliable addition to surface mining and long-haul production drilling operations. It increases speed and lowers drilling cost ...

China Crawler Rotary Diesel Electric Dual-Use Mounted Pneumatic Hydraulic Borehole Blast Down The Hole Drilling Machine, Find Details and Price about ...

Product Description Description& colon;Down-the-Hole Drill Machines are mainly used for perforation working during stone quarrying& period; Full Pneumatic ...

The lightweight down-the-hole drill is a kind of drilling equipment driven by a pneumatic motor or electric motor and directly pushed by the cylinder. It has ...

3. Drilling speed: 5-8m/h 4. Max depth: 30m 5. TW: 250kg Down The Hole Drilling machine BQ90 series drill is a new model drill, we developed it specially used ...

Manufacturers of the Rotary Drilling Rig Machine. REL Specialized in Rotary Blast Hole Drill Rig, Down the Hole Drills for Mining, Quarrying & Construction.

Pneumatic down-the-hole (DTH) hammer has been extensively used in air drillings through hard and ultra-hard geological formations. Numerical modeling can offer close ...

The above are the components of the mini rock drilling machine. YGQ100 small down-the-hole drilling rig mainly includes a carriage, outrigger, console, ...

DTH drilling machines can be used for drilling rock anchor cable holes, anchor holes, blasting holes, grouting holes, and other drilling operations in urban ...

The HQD70 Electric Down-the-Hole Drill is a newly designed, highly efficient and widely applicable rock

# Electric down-the-hole drill and pneumatic

drilling equipment. It serves well in small and medium ...

The HQD70 Electric Down-the-Hole Drill is a newly designed, highly efficient and widely applicable rock drilling equipment. It serves well in small and medium-sized mines, as well as ...

Small down-the-hole drills are suitable for large-diameter blasthole drilling in small and medium-sized mines, road construction, national defense water conservancy projects, and rockwork ...

Discover the world of pneumatic hammer drills in this comprehensive article! Learn about their powerful hammering action, efficiency with air compressors, and diverse ...

Abstract: Percussive-rotary drilling is an effective method for the hard rock drilling. As hydraulic and pneumatic hammers have many problems especially in the deep core drilling, a new ...

A pneumatic down the hole hammer is an indispensable component of any DTH drilling rig, providing the necessary force to drive drill bits deep into the earth. ...

It is widely used in small and medium-sized mines, defense engineering, water conservancy, irrigation projects, road construction, blast hole drilling operations in Rock ...

Pneumatic churn drill for vertical and horizontal drilling, fitted for preparing the guide holes for the diamond wire. The DTH180 is fitted for drilling granite, marble, stone.

Down the hole drilling machine is known as a portable drilling rig or tripod drilling rig. There is a variety of models for DTH drilling machines for sale in YG Machinery. The equipment mainly ...

Down-the-hole drill is a new type of high-efficiency rock drilling equipment, which is widely used in medium and small mines and large-diameter blasthole rock drilling operations in road ...

Mastering the operation skills of down-the-hole drilling rigs can help everyone complete construction tasks more safely and efficiently.

Down-the-hole drilling rigs also face some challenges in practical applications. First of all, due to the complex and changeable underground environment, the parameters and working methods ...
