

Electric second-hand air compressor recycling phone number

How do I dispose of old air compressors?

One option is to take it to a recycling center that specializes in scrap metal. They will often accept air compressors and other metal appliances and dispose of them safely. Another option is to contact your local waste management company to inquire about their e-waste disposal services.

Should you sell or donate old air compressors?

Before recycling an air compressor, release all pressure from the tank to prevent dangerous, accidental releases. Often, selling or donating old air compressors depends on their level of functionality. There are some more things to know about each of those options than just the basics.

What is air conditioning recycling?

Air Conditioning Recycling Redefined. HVAC Recycling specializes in the recycling and removal of inoperable air conditioning units. We purchase complete AC Units, Chillers, Heat Exchangers, Cooling Towers and Boilers.

Can an air compressor be placed in a trash can?

No, an air compressor is too big to fit in the trash can. It typically consists of a motor, a tank, a pump, and some cords. To dispose of it, you'll need to separate every part possible for recycling.

Where can I sell my air compressor?

To sell your air compressor, consider using social media marketplaces and auctions like Craigslist, Facebook Marketplace, and eBay. When taking pictures, ensure they are of good quality and that the compressor is clean and in decent condition.

Can you recycle an air compressor tank?

While the metals of an air compressor, including the motor, can be sold for scrap, the tank itself can be recycled. However, you will need to call ahead to a scrap metal recycler to ensure they can accept it. Alternatively, there are DIY projects that can be done with an air compressor tank if you have time and want to reuse it.
