

French screw piston air compressor wholesale

Who makes AirPress compressors?

The Airpress brand has been known on the market since 1956. In that year, Doeke de Vries and his father Harmen de Vries developed their first piston compressor. This device was a huge success on the domestic Dutch market, so the de Vries family began mass production of K series compressors, which continues to this day.

Who are the suppliers of air compressors?

These suppliers offer: air compressors and their accessories | air conditioning compressors for industrial use | silenced compressor maintenance | Piston and screw-type compressors | condensation separator machinery and systems.

How much power does a rotary screw compressor have?

Factory startup included, 30 to 600 HP premium direct drive two stage rotary screw compressor, fixed or variable speed, air or water cooled. Base mount, integrated air dryer, 428 CFM, 125 PSI, 460/3/60.

What are AirPress compressors made of?

The metal parts of the structure are made of the highest quality stainless steel, resistant to mechanical damage and chemicals. Among the devices available on the market that produce compressed air, Airpress compressors are distinguished by high functionality, simple operation and low operating costs.
