

What is a screw compressor?

A screw compressor is an air compressor that compresses air through the interaction of rotating screws. This mechanism enables the efficient generation of compressed air for a wide range of industrial applications. How do screw compressors work? A screw compressor consists of two parallel, intermeshing screws, one stationary and one rotating.

Who makes rotorcomp air compressors?

ROTORCOMP is a prominent OEM supplier of screw compressors for air and gas, offering a comprehensive range that includes oil-injected screw compressor blocks and compact units. Their product portfolio spans a power range from 2.2 to 670 kW, making them a key player in the air compressor market.

What is a FAS rotary screw compressor?

FAS is a complete range of air cooled single stage rotary screw compressors starting from 3kW up to 90kW. The compressors are designed for heavy duty industrial use and prove their strength when running continuously. The compressors are equipped with IE3 high efficient main motors which guarantee a very economical operation.

Who is Hertz Kompressoren?

Hertz Kompressoren was founded with the aim of manufacturing air compressors with a high level of German engineering in 2005. The company brings over 55 years of design and manufacturing experience to create ideal air solutions for your business, providing maximum uptime and reliability with a low total cost of ownership.

What are the different types of screw compressors?

There are oil-lubricated and oil-free screw compressors. Oil-lubricated compressors provide efficient lubrication and cooling, while oil-free compressors are used for applications that require absolutely oil-free compressed air, such as in the food and medical industries. How do you choose the right screw compressor for a specific application?

Who is alup Compressors GmbH?

ALUP quickly made a name for itself as a manufacturer of car air pumps. ALUP Compressors GmbH now offers its customers much more. ALUP is internationally known for its efficient compressed air systems, which are optimally tailored to the needs of individual customers.
