

Germany fully automatic integrated down-the-hole drilling rig

Is Sandvik's DTH drill rig fully autonomous?

Sandvik Mining and Rock Solutions says it is evolving its Leopard(TM) DI650i down-the-hole (DTH) drill rig to support fully autonomous operation.

What is jk830 drilling rig?

JK830 is an Integrated hydraulic DTH drilling rig dedicated to drilling large bore holes (138-235mm) which brings you more automation, higher working efficiency, better reliability and simpler operation. Atlas Copco air end built into the drill rig ensure the supplier of air. The FOPS-approved cabin and automatic rod exchange system come standard.

What is a DTH rig?

It is the most silent and ergonomic cabin across down-the-hole (DTH) drill rigs. Machine information is integrated on one touch display and a trainer or service technician can fit behind the operator seat. This rig's durable main components, outstanding mobility and powerful tramping contribute to operational productivity and operating stability.

What is a leopard di650i drill rig?

Leopard(TM) DI650i is an intelligent diesel-powered, self-contained, crawler-mounted down-the-hole drill rig built for demanding high-capacity production drilling applications in surface mining and large quarry applications.

What is Automine™; surface drilling release?

Upcoming AutoMine™; Surface Drilling release will provide hole-to-hole tramping for automatic machine relocation from a finished hole to the next one according to the drill plan, based on GPS navigation and path planning - turning Leopard(TM) DI650i into a fully autonomous drill rig.

What is the iDrill drilling cycle?

The result is an optimised iDrill drilling cycle where the operator only needs to monitor the process. The iDrill drilling cycle of Leopard(TM) DI650i is engineered to ensure consistent high-quality drilled holes. It supports the fleet operator by minimising common drilling errors, such as hole inclination, depth and positioning errors.

KT7C KT7D integrated open-air down-hole drill truck is a fully automatic unloading drill pipe down-hole drill truck developed according to the requirements of the mine site construction. The ...

We deeply carry out technical cooperation with famous enterprises and research institutes, and promote product development and variety optimization of the Easy to Control Rock Drilling ...

Germany fully automatic integrated down-the-hole drilling rig

Focuses on drilling technologies like LOGIX automated drilling systems and digital platforms for remote operations and enhanced performance. Provides end-to-end drilling ...

The HFGA47S Integrated down the hole drill rig for open use is a new drilling device developed by Hanfa Group after years of development and production of down the hole drill rig to meet the ...

The KT11 integrated surface DTH drilling rig utilizes a single Cummins three-cylinder diesel engine with dual-end output, simultaneously driving both the screw compression system and ...

The KT25 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework ...

Hfga-52 Excellent Cost Performance 191kw Integrated Surface DTH Drilling Rig, Find Details and Price about Fully Automatic Integrated Down-The-Hole Drill Mine Blasting from Hfga-52 ...

integrating the down the hole drilling system and screw air compressor system, It is capable of drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework ...

Hfga-52 Fully Automatic Double-Speed 191kw DTH Drill Rig Machine, Find Details and Price about Fully Automatic Integrated Down-The-Hole Drill Mine Blasting from Hfga-52 Fully ...

This integrated down the hole drill rig combines air compressor and drilling functions, perfect for DTH boring machine operations in mining.

The KT15C integrated down the hole drilling rig is more heavy than KT15 model, which is lower revolving rotating speed of gyrator 100rpm/min, and with feed stroke 4580mm/5580mm for ...

The RCZ535 hard rock drilling equipment has an integrated design that eliminates the need for a trailing air compressor, enhancing production efficiency and ...

Kaishan KT7D integrated open-pit down-the-hole drilling rig is an advanced drilling equipment that integrates the down-the-hole drilling system and the screw air compression system. It is mainly ...

The HFKT7D integrated down the hole drill rig for open use is an advanced drilling device integrating the down the hole drilling system and screw air compressor system, It is capable of ...

Fully Automatic Integrated Hfga-52 Down-The-Hole Drill with Air Compressor, Find Details and Price about DTH Drill Rig Machine Integrated Surface DTH Drilling Rig from Fully Automatic ...

The KT20S integrated dual-power down the hole drill rig for open use is a heavy duty piece of drilling

Germany fully automatic integrated down-the-hole drilling rig

equipment developed by our company. It is fully equipped to meet the needs of large ...

KT7D/KT7H Integrated DTH Drilling Rig for Open Use The integrated DTH drilling rig is designed to meet the demands of on-site mining operations. It is a fully ...

Kaishan KT7D integrated open-pit down-the-hole drilling rig is an advanced drilling equipment that integrates the down-the-hole drilling system and the ...

KT7D integrates down-the-hole drilling system and screw air compressor system. It is a state-of-the-art drilling equipment capable of drilling vertical, inclined and ...

A high air pressure screw rod with our intellectual property is mounted on the machine. KT5C Integrated Down the hole Drill Rig for Open Use The KT5C ...

Our factory mainly produces water well drilling rigs, core drilling rigs, down-the-hole drilling rigs, pile drivers, etc. The products have been exported to hundreds of countries around the world ...

We believe that only with excellent product quality of our 32m Deep Blast Hole Drill Rigs Down The Hole Drilling Integrated Automatic Rig for Mining can we gain a long foothold in the market ...

ZT10 Integrated Down the hole Drill Rig for Open Use The ZT10 integrated down the hole drill rig for open use is an advanced piece of drilling equipment developed by Kaishan Group to meet ...

The ZT10 integrated down the hole drill rig for open use is a drilling gadget right after a long time of advancement and manufacturing of down the hole drill rig to fulfill the demands of big open ...

JK830 is an Integrated hydraulic DTH drilling rig dedicated to drilling large bore holes (138-235mm) which brings you more automation, higher working ...

An Integrated DTH (Down-the-Hole) Drill Rig is an advanced drilling system designed for efficient and precise drilling in hard rock formations. It combines ...

The KT20 integrated down the hole drill rig for open use is a new drilling device developed by our company after years of development and production of down the hole drill rig to meet the ...

Leopard(TM) DI650i is an intelligent diesel-powered, self-contained, crawler-mounted down-the-hole drill rig built for demanding high-capacity production drilling applications in surface mining and ...

1. Are you a trading company or a manufacturer? We are a professional manufacturer. Our factory mainly produces water well drilling rigs, core drilling ...

Germany fully automatic integrated down-the-hole drilling rig

Fully Automatic Integrated Down-The-Hole Drill Rig for Open Use, Find Details and Price about Compressor DTH Hammer DTH Drilling Rig from Fully Automatic Integrated Down-The-Hole ...

The KT11 integrated down the hole drill rig is driven by a high power Cummins China stage III diesel engine with a two-terminal output that can drive the ...

Multifunctional Drilling Rig is a high-performance, multi-purpose machine designed to meet demanding drilling needs across various terrains and applications. Capable of operating with ...
