It was with great success and in the presence of the Prime Minister Mr. Kyriakos Mitsotakis and also of the former US Ambassador to Greece, Mr. Geoffrey R. Pyatt, the official opening was held on Thursday 5 December 2019 of the 'Production plant of Rewarding Recycling Machines in Greece'

Will Envipco Hellas be a hub for recycling in Greece?

Together with the Greek company Texan Environmental Management, Envipco Hellas has been established to assemble these machines in Greece. As a result, Greece will become an important hub both to encourage recycling and for exporting this technology to the wider Balkan region.

Should you sell or donate old air compressors?

Before recycling an air compressor, release all pressure from the tank to prevent dangerous, accidental releases. Often, selling or donating old air compressors depends on their level of functionality. There are some more things to know about each of those options than just the basics.

Can I throw away my old air compressor?

Many local laws prevent you from just throwing away your old air compressor. You cannot simply put it in the trash due to its size and components. Typically, an air compressor has a motor, a tank, a pump, and some cords. You'll need to separate every part possible to recycle it.

Used air compressors can be recycled, sold, or donated. Often, however, selling or donating old air compressors depends on their level of functionality. Before ...
