Why should you buy a used screw compressor?

Piston compressors are also used as respiratory and air compressors and are extremely versatile. Purchasing a used screw compressor is especially ideal when you require continuous compressed air consumption without major peak loads.

What is a screw compressor & how does it work?

Screw compressors are recommended for very sensitive compressed air loads in particular, as they offer a very cost-effective way of compressing to final pressures of between 5 and 14 bar and a pulsation-free volume flow. You can even choose from the usual maximum pressure levels: 7.5 bar, 8 bar, 10 bar and 13 bar.

How much pressure can a second-hand piston compressor hold?

You can even choose from the usual maximum pressure levels: 8 bar, 10 bar, 15 bar, 30 bar, 35 bar and 40 bar. Use your second-hand piston compressor, for example, to operate compressed air tools such as nailers, spray guns, staplers or impact screwdrivers, or integrate them into your home for painting or pumping up balls, air mattresses or tyres.
