

Hongsheng Precision Screw Air Compressor

What is a Fusheng rotary screw air compressor?

The Fusheng SA series compressors are built with advanced patented helical teeth rotors and delicately processed one-piece casings. These rotary screw air compressors use premium technology to run efficiently and at low cost.

What is a screw air compressor?

The screw air compressor comes with an intelligent human-machine interface control system and a computerized self-diagnostic safety feature. It is an industrial grade compressor designed for wide industrial applications. The Fusheng SA series is verified by TUV Rheinland, a third-party testing laboratory.

What is a rotary screw air compressor?

These rotary screw air compressors use premium technology to run efficiently and at low cost. They run on 5.5 kW to 220 kW of horsepower, have discharge volumes between 0.85m³/min and 42.0m³/min (operating pressure 7.0kg/cm² G), and meet the international energy efficiency standards.

What makes a Fusheng air compressor unique?

Every Fusheng air compressor incorporates high quality components in its design. From the smallest rotor to the largest air end, each part features our most advanced developments.

Our industrial rotary screw air compressors are engineered for applications that demand a constant, high-quality air supply. The core of our design is the proprietary SIGMA profile rotor, ...
