

Hydraulic Mobile Water Well Drilling Rig Operation Video

What is a hydraulic water well drilling rig?

A hydraulic water well drilling rig is a kind of high-efficiency and multi-function drilling equipment that is mainly used for drilling wells, agricultural irrigation wells, ground source heat pump wells, and some other types of wells, especially suitable for water intake projects in mountainous areas and rock formations.

What is a mobile drilling rig?

Drillmec's mobile drilling rigs are self-propelled, and trailer mounted for easy transportation for a variety of workover well services. We manufacture a full range of workover rigs with capacities between 60 to 250 metric tons for a variety of well service applications.

What are the different types of drilling rigs offered by Simco?

With a focus on the specific processes involved in geothermal drilling, geotechnical drilling, and water well drilling, these drilling videos enable you to see the differences between the various drilling rigs offered by SIMCO. A variety of geothermal drilling videos allow you to view Air Rotary DTH Hammer and Mud Rotary drilling.

What types of drilling rigs are available?

The drilling videos featured here on our website showcase the capabilities of various types of drilling rigs, including water well drilling, auger drilling, core drilling, and more.
