

Sandvik HL510 S/F is a compact, robust and universal Hole diameter long hole drilling 48 - 64 mm hydraulic rock drill. It is known of its hydraulic efficiency ...

Sandvik HL1560ST is a hydraulic top hammer rock drill TECHNICAL DATA designed for DL411 and DL421 underground longhole Hole diameter range 89 - 127 mm drills. It is capable of ...

Underground Rock Drills Our range of surface rock drills is ready to tackle any job: horizontal or vertical, light or heavy. Our light pneumatic rock drill can drill ...

The SANDVIK HL1060T hydraulic rock drill is designed for surface longhole drilling of 89-152 mm diameter holes. It is a heavy hydraulic percussive rock drill with independent rotation and ...

TECHNICAL SPECIFICATION Sandvik HEX1 hydraulic rock drill is designed for a maximum recommended diameter of 45 mm. Typical application is foundation drilling, road cutting, ...

TECHNICAL SPECIFICATION Sandvik HLX1 hydraulic rock drill is designed for small diameter holes. Typical application is drilling / bolting in confined environment with Sandvik DS211L-M ...

Our Hydraulic Rock Drill, the HD20, has a built in air compressor that removes drill cuttings from the hole. and makes drilling a breeze.

TECHNICAL SPECIFICATION Sandvik HL300 hydraulic rock drill is designed for long-hole production drilling on surface and rock bolting in hard rock bolting in underground hard rock ...

Furukawa FRD is the industry leader in innovative technologies for rock drills, blasthole drills, hydraulic rock breakers & breaking attachments for ...

Sandvik HF820T is a heavy hydraulic percussive rock drill with independent rotation and separate flushing. High drilling capacity and reliability are enabled by functional modules. Sandvik ...

#1What is Hydraulic Rock Drill? A hydraulic rock drill is a specialized piece of machinery used in construction, mining, quarrying, and other heavy-duty ...

The RD921S is a heavy-duty hydraulic rock drill designed for medium diameter longhole drilling. The construction of the rock drill is based on three body modules tied together with short side ...

Sandvik RD315 is a compact, robust and universal hydraulic percussive rock drill. It is known for its hydraulic

Hydraulic rock drill in English

efficiency and high penetration rate. Sandvik RD315 has excellent serviceability ...

TECHNICAL SPECIFICATION Sandvik DS311D is a one-man-operated electro-hydraulic rock bolter for rock reinforcement in underground mines with small and medium cross sections.

The HL710S hydraulic rock drill is designed to ensure high drilling capacity, easy maintenance and low operating cost. The construction of the rock drill is based on the main body modules ...

DH204 is a hydraulic rock drill which is an only-one tool in the world with a built-in air compressor. No need of air or water from the outside. Dimensions ...

The hydraulic rock drill is an efficient rock-breaking tool widely used in mining, tunnel excavation, and construction engineering. Powered by a hydraulic system, it achieves rock fragmentation ...

TECHNICAL SPECIFICATION Sandvik DT821 is a two-boom electro hydraulic jumbo for fast and accurate drilling in tunneling and cavern excavation. The hydraulic controlled drilling system ...

Sandvik HL1560T is a heavy hydraulic percussive rock drill with independent rotation and separate flushing, which ensures high reliability. It is equipped with hydraulic actuator ...

The Sandvik DT821-C is a two-boom electro-hydraulic jumbo designed for efficient drilling in tunneling and cavern excavation, featuring advanced ...

Sandvik RD314 is a compact, robust and universal hydraulic percussive rock drill. It is known for its hydraulic efficiency and high penetration rate. Sandvik RD314 has excellent serviceability ...

Hydraulic Rock Drills Furukawa and Marini build strong, high performance rock drills for all forms of rock drilling: quarries, open pit mining, civil and ...

Conclusion As efficient and energy-saving drilling equipment, hydraulic rock drills play a crucial role in modern mining and tunnel ...

Sandvik HL510 S/F is a compact, robust and universal hydraulic rock drill. It is known of its hydraulic efficiency and high penetration rate. Sandvik HL510 S/F has excellent serviceability ...

The hydraulic rock drill is capable of accomplishing such impressive drilling feats because it uses hydraulic power for its impact and rotation. The only other piece of machinery which is ...

Sandvik HL1560ST is a heavy-duty hydraulic rock drill designed for large diameter longhole drilling. The construction of the rock drill is based on three body modules tied together with ...

Hydraulic rock drill in English

SANDVIK HL300 ROCK DRILL TECHNICAL SPECIFICATION Sandvik HL300 hydraulic rock drill is designed for long- TECHNICAL DATA hole production drilling on surface and rock bolting in ...

The RD930 is designed and optimized for larger hole sizes. It is a powerful rock drill with a patented new piston design to ensure robustness and good hole quality. The construction of ...

The Sandvik HL1560T hydraulic rock drill is designed for surface long-hole drilling of holes between 89-152 mm in diameter. It is powered by a 33 kW hydraulic ...

TECHNICAL SPECIFICATION Sandvik RD106 hydraulic rock drill is designed for a maximum recommended hole diameter of 45 mm. Typical applications are foundation drilling, road ...

What Are Hydraulic Rock Drills and How Do They Work? Hydraulic rock drills are powerful percussion drilling machines that utilize high-pressure hydraulic fluids to drive pistons, which in ...

Sandvik HL1560ST is a hydraulic top hammer rock drill TECHNICAL DATA designed for DL411 and DL421 underground longhole Hole diameter range 89 ...
