Which lubricants are best for a rotary screw compressor?

Industry Leading OEM Oils & Direct Replacements Many leading compressor manufacturers--such as Ingersoll Rand, Quincy, and Sullair--recommend their own branded oils. These OEM lubricants are engineered to meet precise performance standards, especially in high-demand rotary screw systems. But they often come with a premium price tag.

What is rotary air compressor lubricant?

Premium-quality semi-synthetic lubricant for use in rotary air compressors operating under moderate to severe service conditions. Formulated to provide enhanced thermal and oxidative stability at high temperatures Premium Rotary Air Compressor Oil is available in one viscosity grade: ISO 46.

What is a compressor lubricant?

We offer a full range of compressor oils that lubricate the moving parts of compressors to improve performance, lower maintenance costs and reduce the formation of harmful deposits. Compressor oils are specially formulated for the type of compressor, gas to be compressed, discharge temperature and pressure. WHAT DOES A COMPRESSOR LUBRICANT DO?

What kind of oil does a rotary screw air compressor use?

Generally, rotary screw air compressors use synthetic oil, while recreational compressors may use standard oil. Air compressor oil varies in composition and color but is often yellow or light brown and becomes darker as it becomes contaminated over time. Why do rotary screw air compressors need oil?

Why is lubricant important in rotary screw compressors?

Lubricant is a critical component in rotary screw compressors. Understanding the characteristics of lubricant types helps ensure their proper application and increases customer satisfaction by extending the service life of compressors.

How long do rotary screw compressor lubricants last?

Varnish and other unwanted substances quickly follow. With regular mineral oils, this process can begin after only one to two thousand hours in a rotary screw compressor. Synthetic lubricants are more stable than natural mineral oils and oxidize more slowly. Most full synthetics have an 8000-hour service life rating or more.
