What makes our drilling rigs a high-quality and versatile product?

The focus on drilling work, the flow of information between customer manufacturer and the use of up-to-date engineering technology have all helped make our drilling rigs a high-quality and versatile product. We offer feasibility studies and carry out turnkey drilling systems based on particular specifications and individual customer requirements.

Who makes drilling rigs for water wells & geothermal?

Drilling rigs for water wells and geothermal. Since 1964 Alfredo Beretta, the founder, made the company Beretta Alfredo S.r.l. in 1964, after having gained high experience in the production of air compressed drilling rigs. Based on customer's feedback on our drilling rigs.

Why do we make our tools 'made in Italy'?

Every tool we manufacture is 'Made in Italy' and is a testament to the passion, expertise, and meticulous craftsmanship of our team of engineers and specialized workers. Innovation drives us. Our continuous investments in research and development keep us on the technological forefront, shaping the future of construction.

Uncover the essentials of rock drilling in our ultimate guide! Learn about techniques, equipment, applications, and factors influencing success. ...

Discover the ultimate guide on choosing the best drill for your rock drilling projects. Unravel the key factors influencing drill selection, including rock hardness, type, size, and ...

The productivity and efficiency of the drill and blast method have been investigated by means of NTNU prediction models for excavation time ...

Rock drills are used for mining and rock excavation, which is composed of a piston and a drill made of high-carbon steel. The drill is held loosely in a chuck at the end of the cylinder and is ...

Through researching the development of rock-drilling technology, data collection and site surveys, a technical and economic analysis of hydraulic drilling equipment and ...

Summary The research frontier of drilling and well construction for superhot rock (SHR) geothermal energy systems--the production of renewable, baseload electricity by circulating ...

RESEARCH & INNOVATION Based on customer's feedback on our drilling rigs. Our main purpose is to put the drilling operators in the best conditions to make the job.
