

# Japanese electric air compressor maintenance price

Are all compressor maintenance costs the same?

Not all compressor maintenance costs are the same, and so, it may be worth checking before selecting a compressor and comparing the maintenance costs down the line. Included in the maintenance part of the equation is the cost of the spare parts for regular maintenance and parts costs for emergency repair.

How much does a 50 HP compressor cost?

When you do the math, you'll see that this 50 HP compressor, will cost \$4,887.00 per year in energy operating costs! Today, an electricity cost of \$0.12/kWh to \$0.20/kWh or more may be more appropriate. At \$0.12/kWh, this compressor will cost about \$10,000 per year to run, based on the hours of use shown in the example.

How much does it cost to run a compressor?

Today, an electricity cost of \$0.12/kWh to \$0.20/kWh or more may be more appropriate. At \$0.12/kWh, this compressor will cost about \$10,000 per year to run, based on the hours of use shown in the example. This calculating is just to give you an idea, research the cost of energy in your area and apply it to this formula!

What factors affect the cost of using an air compressor?

Of course, there are many factors that will impact the cost of using an air compressor. This includes how long you're running it and the cost of electricity in your area. Some air compressors are more energy-efficient than others, and so, they will cost less to operate.

How much does a full load compressor cost?

It is fully loaded 85% of the time with a motor efficiency of 95% and unloaded the rest of the time (25% full-load and motor efficiency of 90%). The electric rate is \$.12/kWh. The cost when your compressor is fully loaded: \$137,766.57/year The cost when your compressor is partially loaded: \$6,415.60/year

Should you buy a new compressor?

The major compressor manufacturers will be able to provide a forecast of annual maintenance costs, the sum of which might help you decide to purchase a more expensive yet more reliable compressor. This will then, one would hope, provide you with lower compressor maintenance costs over the life of the unit.
