

Mdj-50 down-the-hole drill rig

Down-the-hole drilling (DTH) essentially involves a drilling hammer at the bottom of a drill string. It relies on three elements for drilling holes: bit loading ...

In down-the-hole drilling a drill rod is fitted with a hammer at its lower end. The hammer, which is mounted on the drill bit, is activated through the addition of compressed air and driven into the ...

Our Machine Programme All our drilling rigs are available with a wide variety of methods including for geothermal energy, water well, down-the-hole surface ...

YG Small DTH Drilling Machine DTH (Down-the-Hole) drilling technology places the hammer right behind the drill bit at the bottom of the hole. Instead of losing energy along the drill pipe, you ...

When choosing a down-the-hole (DTH) drilling rig, you need to consider various factors. This article will guide you on how to choose the right down-the-hole ...

Down the hole drill rig, also known as DTH drilling machine, is applied in mining, engineering, quarrying, geotechnical investigations, etc.

An integrated down the hole drilling machine, also known as a one-piece drill rig, or crawler DTH drilling rig is a powerful and versatile machine used in the ...

A "down the hole" (DTH) drill is a drilling equipment used in mining, construction, and exploration activities. It is specifically designed for drilling large-diameter ...

The KG726III/KG726HIII down the hole drill rig for open use is an improved device in compliance with national regulations on environmental protection. Equipped with the Yuchai engine, the ...

Discover the power of down the hole drilling technology featuring superior performance in hard rock, enhanced accuracy, and advanced automation capabilities for efficient and precise ...

Mastering the operation skills of down-the-hole drilling rigs can help everyone complete construction tasks more safely and efficiently.

When choosing a down-the-hole (DTH) drilling rig, you need to consider various factors. This article will guide you on how to choose the right down-the-hole (DTH) drill from three important ...

DTH drilling rig, short for Down-The-Hole drilling rig, is a cornerstone of modern drilling technology.

Mdj-50 down-the-hole drill rig

Renowned for its efficiency, precision, and versatility, this equipment has ...

Leopard(TM) DI560 is a highly mobile, compact, diesel-powered down-the-hole (DTH) drill designed for DTH blasthole drilling in mining, quarry and ...

Multifunctional Drilling Rig is a high-performance, multi-purpose machine designed to meet demanding drilling needs across various terrains and applications. Capable of operating with ...

The DTH drilling rig (down-the-hole) is a highly efficient rock drilling equipment used in open-pit mines, stonework projects, road construction, and other scenarios. It is also called a shallow ...

This integrated down the hole drill rig combines air compressor and drilling functions, perfect for DTH boring machine operations in mining.

The small down the hole drilling rig offers hybrid motor-air performance, designed for efficient rock drilling in tight or steep areas. Click!

DTH hammer is used for drilling holes through a wide range of rock types, the variety of which continues to extend well beyond the original conception of early blast hole drilling. Down-the ...

DTH rig machine, down-the-hole drilling rig, is a powerhouse drilling tool designed for deep, accurate, and efficient boring in demanding environments. Ideal for mining exploration, quarry ...

Down The Hole Hammer Drill Rigs for Mining, the ZEGA D470A's diesel-powered, down-the-hole (DTH) drill has excellent mobility, a smaller footprint and the ability to serve multiple sites. It is ...

KQTG-150 Down-The-Hole drilling drig offers excellent fuel efficiency, improved safety and higher productivity in challenging rock conditions, which is used for ...

Down the hole drilling rig is a specialized piece of equipment designed to drill deep holes into the earth's surface. DTH drilling utilizes a hammer mechanism that delivers powerful, rapid blows ...

Down-the-hole, or DTH drilling allows for reaching greater depths with the hammer located right behind the drill bit. Robit is a leader in DTH products.

Surface drill rigs are used for blast hole drilling in construction, quarrying, and open-pit mining, covering a hole range between 27-229 mm. We offer the widest range of surface drilling ...

Leopard(TM) DI560 is a highly mobile, compact, diesel-powered down-the-hole (DTH) drill designed for DTH blasthole drilling in mining, quarry and construction industries. Features include a self ...

Mdj-50 down-the-hole drill rig

Down-the-hole D460A drill rig: handles 115-152mm holes up to 35m deep, with a Cummins engine, heavy-duty boom, and hydraulic feed. Includes a 2000 ...

The single engine of the drilling rig drives the screw air compressor and hydraulic system at the same time, which reduces the total power of the diesel engine of ...

A drip tray to be placed on the plastic sheeting in the drill rig area, to catch up oil and diesel leaks. Oil absorbent mats to be placed strategically where continuously dripping, due to operations of ...
