

Peruvian oil screw air compressor manufacturer address

What is a screw compressor?

A screw compressor is a type of compressor that employs screws to continuously compress fluids. One notable example is the air compressor, where air drawn in from the intake is compressed between a pair of screws and discharged as compressed air. This is the principle behind screw compressors known as the twin-screw type.

What is a rotary screw compressor?

A rotary screw compressor is a type of air compressor that uses two rotating screws (also known as rotors) to produce compressed air. If you are using compressed air in your factory, you may also need compressed air dryers. Compressed air systems will always produce moisture.

What is a twin-screw compressor?

This is the principle behind screw compressors known as the twin-screw type. Various types of screw compressors are designed to accommodate different air volumes, pressures, screw shapes, rotation directions, and the presence of oil, ensuring flexibility to meet specific requirements.

Who makes electric air compressors?

Electric includes brands such as Sterling, ABB, and Leeson as well as wiring services and parts and accessories. Alup Kompressoren, founded in 1923 and based in Robassomero, Italy, is a manufacturer of compressed air solutions and compressors, including screw, piston, and oil-free compressors.
