What is a trido solar powered instrument air compressor?

The TRIDO Solar Powered Instrument Air Compressor is a realistic solution to create emissions free well site instrument air. This simple design combines cutting-edge motor technology with the TRIDO VFD Controller to enable successful solar-power for an entire well site in the harshest of conditions.

What is an air compressor?

Air Compressor is a type of air compressor powered by a diesel engine. It utilizes a rotary screw mechanism to compress air and generate high-pressure air for various industrial applications. We can provide air compressors of various models.
