How do Oliver & Lucas explore real life excavators & construction vehicles?

Oliver and Lucas go on an adventure to explore real life excavators and construction vehicles at construction vehicles show and at a real construction site where they get to see a real excavator digging dirt and rocks.

What are excavators & Diggers?

Excavators, also known as diggers, are powerful machines that are great for digging deep holes in the ground. They can turn around in circles and so they are very flexible and can dig exactly where they need to. Ever since Oliver and Lucas were kids they have always been fascinated with excavators, diggers and construction vehicles!

Do excavators make building harder?

Without them, building would take a lot longer and be much harder as they can do heavy work that people can't do on their own. Excavators, also known as diggers, are powerful machines that are great for digging deep holes in the ground. They can turn around in circles and so they are very flexible and can dig exactly where they need to.

Gecko visits Eric the Excavator at the construction site to see why he's so unhappy. It seems Eric is bored doing the same job all over again and wants to try something else out.
