

S215 Jackleg Drill The Mindrill S215 Pusher leg jackhammer is ideal for blast hole drilling in narrow vein-stopping operations, making it the industry standard in ...

Scope of application YT28 is a heavy-duty pusher leg Rock Drill featuring high efficiency and low air consumption is primarily designed for drilling in mines,hydro-power stations,and road ...

Our pusher legs and stoper rock drills cover all construction, tunnelling and mining applications in different rock formations. They are robust designed, ...

Applications: Most fit drilling horizontal and inclined blast holes in medium-hard rock with a hardness of  $f=8\sim 18$ . It may also be for making roof bolting holes. The drill is an important ...

Discover the TY24C, a powerful air-leg rock drill designed for high-efficiency horizontal drilling in mines and tunnels. Lightweight and robust. View full ...

YT28 Air-leg Rock Drill most fit for drilling horizontal and inclined blast holes in medium-hard and hard rock with a hardness of  $f=8\sim 18$ . It may also be used with for making roof-bolting holes. ...

Our powerful drills hit harder and penetrate rock faster than any other drill on the market. Many companies have copied our S83 name but if you want the best you need to buy a true BTE ...

The Jackleg Drill is a mounted rock drill ideal for small cross-section drifts and tunnels and underground mining task. It is known for reliability and performance; it features a backhead ...

S25 Jackleg Drill Mounted Rock Drill The Mindrill S25 Jackleg Drill leg mounted rock drill is a hard-hitting hammer ideal for development end drilling. Its ...

It is an efficient, energy saving rock drill. The BD-YT24 Air Leg rock drill has lower noise, higher durability, faster speeds and a lower failure rate than other comparable drills.

The basics of drilling with a jackleg are similar between different models. The succeeding guidelines are written for the S63F (presently on display inside the ...

Maxdrill's YT24 air leg rock drills are particularly designed for hole blasting in small or medium-sized mines and wet drilling horizontally or at a tilting angle.

The YT28 air-leg rock drill is most suitable for drilling horizontal or inclined blastholes in medium-hard or

## Rock drill leg length specifications

hard rock. It can be used with FT160BC or FT160BD air-legs and an FY200B line oiler ...

ROCK DRILL Boart Longyear has significantly improved the industry standard S250 by introducing advanced noise suppression. This new technology directs more energy to the face ...

The Rukton Minerals YT28 Air Leg Rock Drill is the most modern drilling machine which uses a modern design techniques, compared with the same type of product, with high efficiency, low ...

Mid-Western S83 model rock drills are the most efficient drills on the market. With technology acquired from Gardner Denver in the 1980's, Mid-Western is the OEM of the S83 line of ...

Air Leg and Small Hole drilling tools are essential equipment used in mining, construction, geotechnical engineering, and tunnelling. These tools are ...

Rock drilling tools manufacturer Prodrill YT24 Air-Leg (Pusher Leg) Rock Drill for underground tunneling, drifting. YT24 Air-leg Rock Drill, an important tool for ...

The YT28 air-leg rock drill is most suitable for drilling horizontal or inclined blastholes in medium-hard or hard rock. It can be used with FT160BC or ...

Available in either a 7/8" or 1" chuck size Sold as either wet or dry (with or without water) Can easily be converted to a Jack Leg Drill Great for drilling sniffer holes for utility companies Great ...

Y24 Hand-Held rock drill The YT24 leg-type rock drill is a highly efficient pneumatic rock drilling equipment widely used in mining, railway, transportation, and water conservancy construction ...

The RD927L is a heavy-duty hydraulic rock drill designed for large diameter longhole drilling. The construction of the rock drill is based on three body modules tied together with short side bolts; ...

S215 Air Leg Rock DrillThe S215 air leg Rock Drill is ideal for blast hole drilling in narrow vein stoping operations, making it the industry standard in countries ...

They can also be mounted on jumbos. YT28 is suitable for drilling rocks with a hardness of = 8~18. Page 4 Air-Leg Specifications Weight Length Feed ...

Product Overview The YT23D Air-Leg Rock Drill represents the pinnacle of energy efficiency in the YT Series, engineered specifically for soft rock formations and operations where ...

TECHNICAL SPECIFICATION Sandvik HF820T hydraulic rock drill is designed for drilling 64-127 mm diameter holes. This rock drill belongs to Sandvik hydraulically controlled surface and ...

## Rock drill leg length specifications

Four actions for successful drilling Action 1: Percussive Impact Percussive drilling breaks the rock by hammering impacts transferred from the rock drill to the drill bit at the bottom of the hole.

The Rukton Minerals YT27 air leg rock drill( Jack Hammer) stands out as a cutting-edge tool in the realm of rock drilling machinery, owing to its remarkable high-speed performance. Tailored ...

A pusher leg rock drill is a type of pneumatic (air-power) rock drill for mining, tunneling, and other construction applications where require drilling in rock.

BBC 16W Rock Drill Atlas Copco water flushed, pusher leg mounted rock drills are designed for driving drifts and tunnels with a small cross section. These well-proven rock drills are ...
