What is the easiest way to dig a trench?

In some situations, digging a trench can be made easier by finding a spot where the soil has already been loosened. For instance, if you have access to a dog that enjoys digging, you can take advantage of their excavation efforts. My former neighbor had dogs that would dig under her privacy fence. Putting a few bricks in the places they had started to excavate was enough to dissuade them from digging further in those locations.

Can a star drill be used to drill a rock?

What tools do I need to cut a rock?

Rent yourself a Stihl Partner saw if you want to cut the outline and crosshatches about every 6". Or just rent a Bosch electric jack hammer with a straight breaker bit and a spade bit. It's 120 VAC and you will probably need a bottle of Jack after the job is over, but it will do the job. The best tool depends on how strong and hard the rock is.
