

Russian low pressure screw air compressor case

What are the advantages of SCR low pressure screw compressor?

Low pressure screw compressor With R&D capabilities, can be customized on demand. WHY CHOOSE SCR LB/LBPM SERIES SCR provides you with more energy-efficient equipment and more considerate services. 1. Special design for low pressure application-big air flow, low pressure. 2. Multi point oil automatic injection technology .

What is a compressed air compressor used for?

The compressor is mounted on the power frame of its own and is equipped with all connecting pipes and nozzles. It is intended for oil-free compression of air, which is used in the pneumatic transport units for bulk material transportation (grain, flour, sugar, salt, chemical granules, feed, coal dust, wood flour, cement, lime, ground rock, etc.).

What spare parts do you supply for a compressor?

We produce and supply spare parts for compressors. Cylinders, Pistons, Crankshafts, Sleeves, Crossheads, Connecting rods according to customer's drawings. Inserts N251, N265 (K1, P1, P2). Straight-flow valves Individual valves for compressors. Piston rings, sealing, oil-scraper (steel, cast iron, fluoroplastic and others).

Ingersoll Rand LS200-355kW low-pressure oil-free screw air compressor has inherent product advantages and excellent air flow up to 12% higher than similar products in the market.

Screw compressors are most commonly used because of their different advantages over other types of compressors, mainly for applications demanding continuous and high air demand. ...

Trouble-shoot air compressor problems, find out the cause, get a solution. The compressor place to go when you want to know.
