

SWDR152 integrated down-the-hole drill rig

Kaishan KT7D integrated open-pit down-the-hole drilling rig is an advanced drilling equipment that integrates the down-the-hole drilling system and the ...

Integrated Surface DTH Drill Rig An Integrated DTH (Down-the-Hole) Drill Rig is an advanced drilling system designed for efficient and precise drilling in hard ...

ZT10 Integrated Down the hole Drill Rig for Open Use The ZT10 integrated down the hole drill rig for open use is an advanced piece of drilling equipment developed by Kaishan Group to meet ...

The KT12 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit minestonework blast ...

XQZ152 surface down-the-hole drill rig is a medium-sized integrated down-the-hole drilling machine mainly developed for quarries, cement mines, open-pit ...

RWSD200 uses Cummins engine as a single power, by both ends of the output at the same time to drive the screw compression system and hydraulic drive system, can drill 152-230mm ...

The KT7C integrated down the hole drill rig for open use is an advanced drilling device integrating the down the hole drilling system and screw air compressor system, It is capable of drilling ...

A high air pressure screw rod with our intellectual property is mounted on the machine. KT5C Integrated Down the hole Drill Rig for Open Use The KT5C ...

The KT12 integrated down the hole drill rig is driven by a Cummins China stage III diesel engine and the two-terminal output can drive the screw compression ...

KT15C integrated down-the-hole drill rig is capable of drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre ...

High-strength, multi-degree-of-freedom drill arm, multi-directional drilling, horizontal holes, vertical holes and other angles, extremely flexible The propulsion beam is cold-drawn from double ...

The integrated down the hole drill rig is a self-propelled rock drilling equipment that incorporates the power system (usually a diesel engine and an air ...

SWDR152 integrated down-the-hole drill rig

Product descriptions from the supplier SWDR152B The new generation of integrated down-the-hole drilling rig is specially designed for high productivity, and created for green and intelligent ...

Product description The new generation of integrated down-the-hole drilling rig is specially designed for high productivity, and created for green and intelligent drilling and blasting. The ...

KT15C integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre-splitting holes.

The SWDE152B integrated down-the-hole drilling rig is highly efficient, and the unique long drill frame structure reduces the auxiliary time of the drilling rig to ...

The SWDR series is surface down-the-hole drilling rigs which have a drilling diameter of 105-203mm and a max drilling depth of 30 Meeting the drillingneeds of vertical, inclined and ...

The KT11 integrated down the hole drill rig for open use can drilling vertical,inclined and horizontal holes.mainly used for open-pit mine,stonework ...

Sunward SWDR152B blasthole drill rig is with excavator body. Higher operation efficiency and better economy The 360° rotation of the upper body effectively improves the working ...

Multifunctional Drilling Rig - High Power, High Efficiency, Maximum Versatility Multifunctional Drilling Rig is a high-performance, multi-purpose machine ...

The HFGA47S Integrated down the hole drill rig for open use is a new drilling device developed by Hanfa Group after years of development and production ...

Our KT5C Integrated down the hole drill rig for open use is an advanced drilling device with an integrated screw air compressor system. The equipment is compact in structure and mobile ...

It can drill vertical, inclined and horizontal holes, used for drilling and pre-splitting holes in open pit mines and stone works, etc.

The KT5C Integrated down the hole drill rig for open use is an advanced drilling device integrating the down the hole drilling system and screw air compressor ...

Products Description The KT15C integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes mainly used for open-pit mine, stonework blast holes and ...

This integrated down the hole drill rig combines air compressor and drilling functions, perfect for DTH boring

SWDR152 integrated down-the-hole drill rig

machine operations in mining.

The KT25 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework ...

The KT12 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine stonework blast holes and pre-splitting holes. It is driven by ...

The integrated down-the-hole drilling rig, also known as an all-in-one drilling rig, is a versatile and efficient piece of equipment used for drilling holes in various types of terrain. To ensure its ...

The KT25 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre-splitting holes. ...
