

Sandvik DS2710 is a rock support drill rig designed for underground mines with hard rock such as granite, offering high capacity and reliability. It provides optimal performance in a wide range of conditions.

Sandvik DD2710 is a highly efficient percussive rock drill, which offers high productivity and optimal performance in underground mining projects.

Sandvik DL2710 is a compact and fully mechanical rig for long-term use with electrohydraulic top hammer for underground rock drilling. It is designed for use in areas at least 3.4 x 3.2 meters (H x B). See ...

DD2710 is equipped with Sandvik HLX5 hydraulic rock drill, which delivers 20 kW of percussion power for high penetration rates and good rock tool service life in varying rock conditions. The ...

Sandvik DD2710 is equipped with Sandvik HLX5 hydraulic rock drill, which delivers 20 kW of percussion power for high penetration rates and good rock tool service life in varying rock ...

Sandvik DL2710 es un equipo de perforación de barreno largo compacto y totalmente mecanizado con martillo en cabeza electrohidráulico, diseñado para la minería subterránea en ...

This page provides you with SANDVIK DS2710 Rock support drill rig parameters, prices, pictures and other information. It is the main website for your SANDVIK DS2710 Rock support drill rig ...

Der DD2710 von Sandvik ist ein fortschrittliches Vortriebsbohrgerät, das Präzision und optimale Leistung bei Untertagebergbauprojekten bietet.

DELKOM is the world's best quality alternative rock drill spare parts manufacturer for all brands of drill rig machines and rock drill drifters such as Atlas Copco, Epiroc, Sandvik, Furukawa, ...

Sandvik DS2710 -pultituslaite on suunniteltu kovan kiven kaivoksiin isoa kapasiteettia ja hyvästä luotettavuutta vaativaan kalliolujitukseen. Laitteen etuna on optimaalinen kustannustehokkuus ...

Sandvik DL2710 ist ein kompaktes, vollständig mechanisiertes Langlochbohrgerät mit elektrohydraulischem Aufhämmer für den unterirdischen Bergbau in Abbaustrecken von 3,4 ...

Complemented by a rock drill with high penetration rate, Sandvik DD2710 ensures shorter round and cycle

Sandvik Rock Drill 2710

times. Similar models may be shown in addition to the featured model. Equipment ...

Built from proven and reliable components, Sandvik DS2710 is designed for high availability. At its core is the well-known Sandvik hydrastar 200 rock drill, which enables fast performance.

SANDVIK DD2710 - Free download as PDF File (.pdf), Text File (.txt) or read online for free. The document provides technical specifications for the Sandvik ...

TECHNICAL SPECIFICATION Sandvik DS2710 is a one-man-operated electro-hydraulic rockbolter for rock reinforcement in underground mines with small and medium cross sections. ...

Sandvik DS2710 bergbolter er utviklet for gruedrift i hard rock under jord som krever høy kapasitet og pålitelighet. Den tilbyr et optimalt forhold mellom ytelse og kostnad for små og ...

El modelo Sandvik DS2710 es un empernador de roca diseñado para operaciones subterráneas en minas de roca dura que requieren un alto nivel de capacidad y confiabilidad. Ofrece una ...

Sandvik DD2710 also maintains the company's high safety standards, including a telescopic FOPS-compliant canopy and automatic drilling functions that allow operators to concentrate ...

DD2710 från Sandvik är en avancerad utvecklingsborrigg som erbjuder precision och optimal prestanda i gruvprojekt under jord.

Sandvik DD2710 is mounted on a 4-wheel drive frame-steered and diesel powered carrier, which features a FOPS-approved safety canopy, and layout designed for good visibility and stability ...

Ranger(TM) DX800 is a hydraulic, diesel-powered, self-propelled top hammer drill rig with an ergonomic cabin and rod handling system. Typical applications are ...
