

Shiyan Engineering Anchor Drilling Rig

What is ak-60 construction anchoring rig used for?

AK-60 construction anchoring drilling rig is used for drilling anchor holes in deep foundation pits of high-rise buildings, and for anchoring and reinforcement of slopes in water conservancy projects, hydropower projects, railways and highways.

Where can Jinfan drilling rigs be used?

Jinfan is the only manufacturer of a drilling rig suitable for use in geological investigations in China. Our HGD-200 and HGD-300A rigs are frequently used for offshore engineering geological investigations in the South China Sea, the Huanghai Sea, and the East China Sea.

Which anchor drilling rigs are best for subgrade strengthening?

Our YG-30, YG-50 and YG-60 anchor drilling rig models are extremely popular for subgrade strengthening, so as to prevent landslide disasters, rock collapses, as well as other geological calamities.

What is a drilling rig used for?

The unique design structure is an ideal drilling rig for the construction of soil layers, sand and pebbles and weathered rock layers. The drilling rig has reliable quality and high cost performance, and is widely used in engineering constructions such as drilling anchor cables and bolt holes.

What is AK-30 construction anchor drilling rig used for?

AK-30 construction Anchor Drilling rigs used for drilling anchor holes in deep base pit of high building, anchor and reinforce side-slope for water conservatory project, water power station project, railways and highways. Especially used for drilling anchor holes in high position side-slope protection and drainage holes.

What is a Jinfan yg-80 & yg-60 anchor drilling rig used for?

Due to their reliable performance and wide range of applications, the JINFAN YG-80 and YG-60 anchor drilling rigs are often used to create holes for anchoring purposes in many key hydropower stations of China.

In this product feature edition of Offshore Engineer is looking at recent news and developments in the space of offshore moorings and anchors. While some ...

Hutte hydraulic drilling rigs for micropiles and ground anchors for new and existing foundations, ground stabilization, and soil investigation.

This specialized drilling rig is designed specifically for installing self-drilling anchor bars in complex ground conditions, such as unstable rock, loose soil, or weathered formations. It combines ...

Shiyan Engineering Anchor Drilling Rig

At QAUSAN, we engineer high-performance hydraulic drilling rigs that redefine efficiency and reliability. With 25+ years of cutting-edge innovation, our rigs are built to tackle

Hydraulic drilling rigs, drilling accessories, know-how and service for civil engineering and geothermal applications Hütte Bohrtechnik is a global leader ...

As a fully hydraulic rotary anchoring drilling rig, MD-60A slope anchoring engineering drilling machine is mainly used for the anchoring engineering of coast and dangerous rock or cliff for ...

Looking for a good deal on Anchor Drilling Rigs FOR FOUNDATION? Explore a wide range of the best Anchor Drilling Rigs FOR FOUNDATION on AliExpress to find one that suits you! Besides ...

JCM180 hydraulic anchor drilling rig with a center-rotating table is suitable for multi-position drilling. With a compact and sturdy structure, it can be used for anchor borehole, anchor nail ...

Anchor drilling rig is like the silent hero of geotechnical engineering and construction of tunnels. It makes the ground above and around remain just where it is supposed to be, safe and secure.

Shannxi Xitan Geological Equipment Co., Ltd was established in 1958 as a specialized drilling rig manufacturer for more than 60 years. High-pressure jet ...

The anchor drilling rig is mainly used for slip wave treatment engineering of railways, highways, water conservancy, and hydropower facilities, the ...

China leading provider of Anchor Drilling Rig and Tunnel Drilling Rig, Sichuan Zuanshen Intelligent Machinery Manufacturing Co., Ltd. is Tunnel Drilling Rig ...

Our drilling machines are used in GSHP systems, engineering geological investigation, water well construction, water conservation industries. We specialize in engineering top-of-the-line ...

Explore the working principles and anchoring methods of self-drilling hollow anchor rods in slope, foundation pit, tunnel, and prestressed ...

Crawler Anchor Drilling Rig, Type MGY-135L Crawler anchor drilling rig, type MGY-135L is a hydraulic gyrator anchoring engineering rig. It is suitable for ...

Features 1) The anchor drill rig has great drilling capacity, wide range of application, fast drilling speed, and high drilling efficiency, as well as good ...

Maximum torque: 17000 Nm Given progress:10500 mm Power type: Diesel engine >> Application JCM290 Ultra-deep hole fully hydraulic anchoring drilling rig, with 400mm maximum opening ...

Shiyan Engineering Anchor Drilling Rig

The ZJ-series full hydraulic anchor engineering drilling rig is a drilling rig powered by hydraulic drive. It is specifically designed for various construction projects including deep foundation pit ...

The Anchor Engineering Drilling Rig is a high-performance geotechnical drilling solution designed for precision anchoring and reinforcement operations in complex ground conditions. Widely ...

In this product feature edition of Offshore Engineer is looking at recent news and developments in the space of offshore moorings and anchors. While some time back this section would be ...

The industry-trusted source for Drilling Equipment, Drill Rigs, Anchoring & Crawler Rigs, Piling Tools, Consumables and Parts, Drill Services and Consulting to ...

Self-drilling anchor drill rigs are highly efficient equipment used in geotechnical engineering, primarily for the installation of self-drilling anchors. They are widely applied in slope ...

This anchor engineering drilling rig is especially designed to be used on steep slopes and embankments. The slope drill rig adopts our latest group technology and new hydraulic ...

Understanding the equipment and tools used in drilling rigs is essential for petroleum engineers and drilling engineers alike. These ...

Our teams have more than forty years" experienced in specializing in small and medium-sized drilling rigs. We have introduced world advanced ...

Hubei Xingda Imp & Exp Trading Co., Ltd. (Hubei Xinyeda Machinery Co., Ltd.), headquartered in Huangshi, Hubei Province, is a high-tech enterprise specializing in the research, development, ...
