

Single-arm rock drill range

Pneumatic rock drilling solutions by Ripamonti Drilling Equipment. As the exclusive United States distributor for Ripamonti, WORD Rock Drills proudly offers this premier line of high-quality ...

The Drill is a mechanism that requires electricity to function. Its primary purpose is to harvest ore boulders, but it can also be used to mine any wall and damage creatures, similar to a trap. ...

Ranger(TM) DX800 is a hydraulic, diesel-powered, self-propelled top hammer drill rig with an ergonomic cabin and rod handling system. Typical applications are ...

In summary, if your project involves extensive drilling with a need for high productivity and flexibility, a double-arm rock drilling machine may be more practical. However, ...

Raiseboring tools We are the industry leader in raise boring rock drilling tools with a rich history of providing high quality products to drill raises in rock up to 8 ...

Axial-torsional coupling impact drilling (ATCID) is a promising rock breaking method to excavate energy mineral resource from deep and hard formations...

Single Arm Hydraulic Rock Drilling Machine This rock drill is used to drill blast holes for big section tunneling constructions in mining, metallurgy, water and ...

The purpose of One-Arm Swimming is to maintain body position and develop feel for the rearward pull. With one arm extended forward, swim with only one arm (the other arm).

Sandvik DD312i is an advanced single boom development drill for underground mine development and small scale tunneling. It features a compact carrier and ...

Introduction The jackleg drill with a pneumatic pusher leg that combines percussion and rotation to drill rock is a commonly used tool in underground mining operations. Jackleg drills can ...

CYTJ45 single booms drilling jumbo rigs are core equipment for drilling and blasting in mines and underground projects. They are mainly suitable for drilling and blasting holes in small tunnels ...

CYTJ45 single booms drilling jumbo rigs are core equipment for drilling and blasting in mines and underground projects. They are mainly suitable for ...

AirROC T25 and AirROC D40 are one-man operated machines. They maneuver rough terrain with ease,

Single-arm rock drill range

operating smoothly, thanks to its two independent hydraulic motors and dynamic ...

Product introduction: DW1-50E fully computerized single-arm rock drilling rig is a new intelligent high-end rock drilling equipment, specially developed and ...

A single-arm drill is compact and useful if you have a small-scale mining operation in a limited space. If you want large-scale mining with better efficiency, you can go for the multi ...

The single arm freestyle is used to isolate one arm to really focus on specific elements of your stroke, from the recovery and the catch to the pull-through and push out. It allows you to slow ...

CYTJ45A single booms drilling jumbo rigs are core equipment for drilling and blasting in mines and underground projects. They are mainly suitable for ...

Find the best rock drilling machine & hammer drill for hard rock jobs. Durable, powerful, and efficient--perfect for any rock drilling project.

240B On-Grade With the 240B combo drill, you can switch between rock drilling and core drilling with a bit guide and motor change for greater versatility on jobsites. Use it to ...

Hydraulic Rock Drills Furukawa and Marini build strong, high performance rock drills for all forms of rock drilling: quarries, open pit mining, civil and ...

The single-arm drilling rig series is a series of brand-new intelligent high-end rock drilling equipment independently developed and manufactured by our company. This series of ...

The modern silenced gear type rotated rock drill COP 131EB for drilling blast holes ranging from 48 to 102 mm (1 7/8"-4") with R32, T38 and T45 extension rods. The rifle bar rotated and less ...

This Single Arm drill allows you to concentrate on stroke accuracy. By isolating one arm, it allows you to focus on improving technique. While a theoretically...

2. Imported high-power rock drill, full hydraulic control system, high drilling efficiency. 3. Unique single-layer hose reel, with reliable over-arm structure 4. Anti-stuck drill, anti-air strike and ...

Face drilling rigs, commonly called "drill jumbo"s, are large, single or multi-boom machines used in underground hard-rock mines. Booms typically have six control axes to position and orient ...

Applied range: G1Z70 Single-arm Drilling Jumbo is used in mines, hydropower, railways, highways and other fields, tunnel drilling and blasting construction, tunneling and drilling ...

Single-arm rock drill range

The self-developed and produced CMJ1-14 (DT1-14) crawler-type single-arm excavation trolley is used for blasting holes and bolt holes in roadways, tunnel ...

Precision Drilling's Super Single is redefining the single rig category by challenging its rig class through unmatched performance, power, mobility, and versatility.

Choosing the right rock drill starts with knowing your needs. APT offers four weight classes--9, 15, 30, and 60 pounds--with a BPM range of 2100 to 3400 ...
