

Slope support high-lift down-the-hole drill rig

Anchor slope drilling rigs are specifically designed to drill holes for anchors, which are crucial elements for stabilizing slopes and preventing landslides. These rigs can operate at variable ...

Brief introduction XDGJ series fully hydraulic crawler-type high-lift drilling rigs are mainly used in landslide and dangerous rock mass anchoring projects in the ...

Top hammer drill rigs Drill rods are hammered from the top. Suitable for medium to hard rock. Precise and commonly used in slope support. Down-the-hole (DTH) drilling rigs The ...

Slope protection anchoring drill is mainly applicable to: construction, water conservancy, exploration, deep foundation pit support, highway and railway slope reinforcement and other ...

XDGJ series fully hydraulic crawler-type high-lift drilling rigs are mainly used in landslide and dangerous rock mass anchoring projects in the prevention and control of various ...

The rig's adaptability extends to blasting holes, high-pressure jet grouting piles, tunnel anchor projects, and tunnel pipe shed support holes. With a modifiable power head, it ensures ...

Anchor drilling machine (Anchor drilling machine) is a kind of high efficient drilling equipment used for foundation reinforcement, slope stabilization and tunnel support, which is specially ...

Brief introduction XDGJ series fully hydraulic crawler-type high-lift drilling rigs are mainly used in landslide and dangerous rock mass anchoring projects in the prevention and control of various ...

The SKB120-5.5 DTH drilling rig features a hybrid power system combining an electric motor with compressed air. With high torque and strong penetration, it's ideal for deep-hole blasting. ...

This drilling rig can perform ordinary rotary drilling, air down-the-hole hammer drilling, high-pressure jet spraying, self-drilling and self-blasting, etc. It is specifically used in foundation pit ...

Traditional anchor drilling rigs currently available on the market typically have a lifting height of around 2 meters, making them inadequate for drilling holes in high-slope support projects. Our ...

100b Light Small Anchor Foundation Rock Soil Slope Support Drill/Drilling Rig, Find Details and Price about Light Weight Drill Rig Down The Hole Rigs from 100b Light Small Anchor ...

Slope support high-lift down-the-hole drill rig

blasting engineering blasting holes, high-pressure jet grouting piles, tunnel anchoring engineering, tunnel pipe shed support holes, etc. The power head has been slightly changed.

The KQZD series down-the-hole drilling rig is an efficient and flexible open-pit crawler rock drilling equipment. It transmits impact energy to the drill bit through the impactor. The drill bit rotates ...

Application Of DTH Drilling Machine Down the hole drill rig can drill holes in rocks above medium hard ($f \geq 8$). Therefore, down-the-hole drilling machine ...

ZDD Portable electric tripod Surface DTH Drilling Rig is a highly efficient and widely applicable drilling equipment, widely applicable to small and medium-sized mines and transportation, ...

When it comes to blasting holes, high-pressure jet grouting piles, tunnel anchor projects, and tunnel pipe shed support holes, our rig is adaptable with a modifiable power head that ensures ...

The slope protection anchor drill is mainly applicable to: construction, water conservancy, exploration, deep foundation pit support, slope reinforcement and other projects, especially for ...

Down-the-Hole (DTH) drilling is a technique used to create deep, precise holes in hard rock and challenging ground conditions. In this method, ...

SAH-6M SAH-15M SAH-30M High Lift Anchor Drilling Rig is the first choice for high slope support engineering, convenient for adjusting drilling height and ...

Anchor Drilling Rig Application: Hydropower station/railway/highway slope plus solid, and various types of geological disaster prevention of landslide and ...

Servicing is quick and easy, requiring just one person. mining drilling rig is suitable for limestone, aggregate quarries, surface mining applications, and construction. The drilling rig can be ...

Main drilling methods: conventional down-the-hole hammer drilling, pipe drilling, and auger drilling. In the drilling construction practice of various complex strata and different drilling ...

Slope Stabilization Canyon Equipment offers hydraulic and pneumatic rock drilling equipment for slope stabilization projects in remote access and is Heli ...

SAH-20M high-lift anchoring drilling rig, also known as high-arm drilling rig and high-lift slope protection drilling rig, is mainly used in landslide and dangerous ...

The high-lift drill rig mainly used in railway, highway, hydropower station high slope support engineering and

Slope support high-lift down-the-hole drill rig

urban deep foundation pit support, anti-floating anchor works.

DTH Drilling Equipment Working Process The rock drilling principle of a down-the-hole drill machine is the same as a heavy-duty rock drill rig. The difference is ...

\$1,150.00-1,180.00 Min. Order: 1 piece 2025 Hengwang Slope Protection 2.5m Anchor Drilling Machine High Lift Rock Drilling Machine Down the Hole Anchor Drilling Machine \$6,500.00 ...

This high-energy video, immersive at the construction site, showcases a hydraulic down-the-hole drill rig accurately positioning holes and installing anchor bolts during slope anchoring operations ...

Product descriptions from the supplier If you want to know more,pls send us inquiry and we will give you best ideas Slope Support Porject Crawler Down the Hole Drill Rig Portable Platform ...

Crawler slope protection drilling rig and crawler anchor drilling rig are high-efficiency, energy-saving, time-saving and labor-saving drilling rigs developed ...

Online Customization Video Description Specification The anchor drilling rig is used for hydropower station/railway/highway slope reinforcement, and all kinds of geological disaster ...
