

Small water well drilling rig working video

What is a water well drilling rig?

A water well drilling rig is a machine designed to drill a borehole into the ground to access groundwater. Water well drilling rigs come in various sizes and types, ranging from small portable rigs used for household wells to large, powerful rigs used for commercial and industrial applications.

Can you drill your own well?

You can drill your own well and have access to all the water you'll ever need. Many city residents are now drilling home water wells as an excellent alternative to chemical tasting municipal water. The quality of well water is simply unmatched. With city water rates soaring, well drilling provides an economical alternative.

Which rig is best for water well drilling?

As a self-propelled core drilling rig, the XYX-3 trailer-mounted water well drilling machine in YG is another popular tractor-mounted drilling rig. The price of XYX-3 is a little high, but it's also more efficient and the drilling depth can reach 600m simultaneously. Therefore, it is more suitable for large drilling projects.

What is a portable water well drilling rig?

The portable water well drilling rigs for sale in our company are collapsible drilling equipment. So it's very convenient to carry and store. This kind of drill adopts the ball clip clamping mechanism, which can realize the continuous reverse lever and make it easy to operate.

What types of drilling rigs are available?
