

Subans screw air compressor password

What is a user manual for an Ozen screw air compressor?

This document provides a user manual for an OZEN Screw Air Compressor. It contains safety instructions regarding moving parts, burn and sharp risks, flammable materials, fire and explosion risks, and electric shock risks.

What is a screw-type air compressor?

Screw-type air compressor structure of a unique design, a compact, stylish appearance, high efficiency, small energy consumption, low noise characteristics and long life, is a smart environment-friendly product. It is widely applied in metallurgy, machinery, chemicals, and mining, and electric power industries of the ideal gas source equipment.

What is a screw air compressor?

Air compressor is modular in design, screw rotor, oil and gas separation extinguishers, coolers, are installed in a motor, within the framework of acoustic enclosures through the noise of rubber materials. Screw air compressor is the main components of screw head, the separation of oil and gas cylinder.

How oil injected screw air compressor works?

The oil-injected screw air compressor has the characteristics of reliable running performance, few wearing parts, low vibration, low noise, and high efficiency. During the compression process, the compressor continuously sprays lubricating oil into the compression chamber and bearings by virtue of its own pressure difference.

How do you check a screw compressor?

Check the set data, voltage, bearings, tubes, and other mechanical system. Screw compressor requires the minimum amount of inspection and maintenance. The controller and indicator alert the operator to perform required maintenance or repair unit problems. Screw compressors are filled & tested with Total lubricant.

What are the components of screw air compressor?

Screw air compressor is the main components of screw head, the separation of oil and gas cylinder. Screw suction filter through the nose and suction inlet control valve, oil also inject compressed room, a cooling of the nose, while the screw and the bearings lubricated by compressed air pressure that is generated.
