

# Sullair 600 screw air compressor instruction manual

Where can I get parts for a Sullair compressor?

You should order parts from the nearest authorized Sullair representative or the representative from whom the compressor was purchased. If for any reason you cannot obtain parts in this manner, contact the factory directly at the address, phone number, or website listed below.

What is a Sullair air care seminar?

Page 2 Air Care Seminar Training Sullair Air Care Seminars are courses that provide hands-on instruction for the proper operation, maintenance, and servicing of Sullair products. Individual seminars on Portable compressors are offered at regular intervals throughout the year at Sullair's training facility located in Michigan City, Indiana.

How do I contact Sullair?

Page 79 Subject to EAR, ECCN EAR99 and related export control restrictions. Page 80 Sullair, LLC 3700 East Michigan Boulevard Michigan City, IN 46360 USA 1-800-SULLAIR (USA only) 1-219-879-5451 (non-USA) Information and specifications are subject to change without prior notice.

Does Sullair require a wiring diagram?

Required customer wiring is minimal, but should be done by a qualified electrician in compliance with OSHA, National Electrical Code, and/or any other applicable State, Federal, and local electrical codes concerning isolation switches, fused disconnects, etc. Sullair provides a wiring diagram for use by the installer.

What is Sullair service training?

Instruction includes training on the function and installation of Sullair service parts, troubleshooting common faults and malfunctions, and actual equipment operation. These seminars are recommended for maintenance, contractor maintenance, and service personnel. 3700 E. Michigan Blvd. Michigan City, IN 46360 Attn: Service Training Department.

What should I do if my Sullair compressor is damaged?

If you find any damage, contact your Sullair representative immediately. Sullair recommends using a forklift to move the compressor. A crane can also be used. A site assessment must be carried out to ensure forklift or crane access for removal and servicing of major components and compressor transport.
