

Surface DTH Drilling Rig Inspection Report

What is a drilling rig inspection checklist?

Inspectors use drilling rig inspection checklists to outline the criteria and parameters for assessing rig efficiency, ensuring that rigs meet safety standards and operational requirements. This free and editable drilling rig inspection checklist makes inspections easier and more organised for everyone.

How many rig inspection forms are there?

It is made up of 35 inspection forms. The forms are designed to be used by rig workers to document the inspection of tools and equipment commonly found on rotary and workover rigs. Each inspection form includes instructions for assessing and recording the condition of the equipment.

What is a rig inspection form?

The forms are designed to be used by rig workers to document the inspection of tools and equipment commonly found on rotary and workover rigs. Each inspection form includes instructions for assessing and recording the condition of the equipment. When applicable, relevant federal regulations and industry recommended practices are included.

What is rig check?

Rig Check was developed by the National Institute for Occupational Safety and Health (NIOSH) in partnership with safety experts from the oil and gas extraction industry. It is made up of 35 inspection forms. The forms are designed to be used by rig workers to document the inspection of tools and equipment commonly found on rotary and workover rigs.

What should a rig inspection include?

the rig should have a written plan for calibrating and testing alarms and shutdown devices. The inspection should include a review of these documents to ensure new equipment and or rig modifications have not altered the function of the devices. These checklists are not all inclusive.

How do I store a Master drilling rig inspection checklist?

Store your checklist records in the cloud where they are secure and easily searchable. Format your completed checklists into timeline or register view at the click of a button. Customise the master drilling rig inspection checklist template with drag-and-drop functionality.

The global surface DTH (Down-The-Hole) drilling rig market is experiencing robust growth, driven by the increasing demand for efficient and cost-effective drilling solutions across ...
