

The integrated down-the-hole drill rig cannot reverse and unscrew the drill rod

The D470A down-the-hole open pit drill rig, crafted for challenging conditions and strenuous tasks, is ideal for extensive rock drilling, excelling in everything from pre-split to ...

The KT5C Integrated down the hole drill rig for open use is an advanced drilling device integrating the down the hole drilling system and screw air compressor ...

The KT25 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework ...

The DTH hammer is positioned at the end of the drill string, it is screwed to the drill rod which delivers a drilling fluid powering the hammer mechanism. The ...

Our KT15 integrated surface DTH drilling rig is designed by drawing inspiration from previous models. It can satisfy most needs of operators by providing a ...

The KT10 integrated down the hole drill rig is driven by a high power Cummins China stage III diesel engine with a two-terminal output that can drive the screw compression system and ...

The KT12 integrated down the hole drill rig is driven by the Cummins China stage III diesel engine and the two-terminal output can drive the screw compression system and hydraulic ...

The KT12 integrated down the hole drill rig is driven by the Cummins china stage Three, diesel engine and the two-terminal output can drive the screw ...

Down-the-hole drill DTH drill tool operated with drilling mud (Drillstar MUDHammer) A down-the-hole drill, usually called DTH by most professionals, is basically a jackhammer screwed on the ...

Down the hole drilling rig is an impact rotary drilling rig. Its internal structure is different from that of a general rock drill. The down-the-hole drilling machine is ...

The essence of the Down the Hole Drill is to make the impactor dive into the hole during the rock drilling process to reduce the energy loss caused by the impact energy transmitted by the drill ...

An Integrated DTH (Down-the-Hole) Drill Rig is an advanced drilling system designed for efficient and precise drilling in hard rock formations. It combines ...

The integrated down-the-hole drill rig cannot reverse and unscrew the drill rod

YG integrated down the hole drill rig is highly efficient, energy-saving and powerful, suitable for a variety of complex working conditions.

RC, or reverse circulation, drilling is a tried and true drilling method in certain circumstances. Drillers usually use it on large-diameter holes ...

This integrated down the hole drill rig combines air compressor and drilling functions, perfect for DTH boring machine operations in mining.

+ A rig you can rely on - shift after shift SmartROC rigs from Epiroc work consistently and effectively even in the most demanding conditions. Air capacity is the most important factor ...

An Integrated DTH (Down-the-Hole) Drill Rig is an advanced drilling system designed for efficient and precise drilling in hard rock formations. It combines the power of a DTH hammer with a ...

Sandvik Mining and Rock Solutions is introducing a new reverse circulation (RC) sampling option for its Leopard(TM) DI650i down-the-hole (DTH) ...

The KT15 integrated down the hole drill rig for open use is a new drilling device developed by our company after years of development and production of down the hole drill rig to meet the ...

The KT12 integrated down the hole drill rig is driven by a Cummins China stage III diesel engine and the two-terminal output can drive the screw compression system and hydraulic ...

ZT10 Integrated Down the hole Drill Rig for Open Use The ZT10 integrated down the hole drill rig for open use is an advanced piece of drilling equipment developed by Kaishan Group to meet ...

Multifunctional Drilling Rig is a high-performance, multi-purpose machine designed to meet demanding drilling needs across various terrains and applications. Capable of operating with ...

A high air pressure screw rod with our intellectual property is mounted on the machine. KT5C Integrated Down the hole Drill Rig for Open Use The KT5C ...

The KT15 integrated down the hole drill rig for open use is a new drilling device developed by our company after years of development and production of ...

Down-the-hole drilling (DTH) essentially involves a drilling hammer at the bottom of a drill string. It relies on three elements for drilling holes: bit loading ...

The KT12 integrated down the hole drill rig is driven by the Cummins China stage III diesel engine and the

The integrated down-the-hole drill rig cannot reverse and unscrew the drill rod

two-terminal output can drive the screw compression ...

The KT20 integrated down the hole drill rig for open use is a new drilling device developed by our company after years of development and production of ...

Kaishan KT7D integrated open-pit down-the-hole drilling rig is an advanced drilling equipment that integrates the down-the-hole drilling system and the ...

It can drill vertical, inclined and horizontal holes, used for drilling and pre-splitting holes in open pit mines and stone works, etc.

Leopard(TM) DI550 diesel-powered, down-the-hole (DTH) drill has enhanced mobility, a smaller footprint and can serve multiple sites. Designed for DTH ...

The KT12 integrated down the hole drill rig is driven by a Cummins China stage III diesel engine and the two-terminal output can drive the screw compression ...

Our KT5C Integrated down the hole drill rig for open use is an advanced drilling device with an integrated screw air compressor system. The equipment is compact in structure and mobile ...
