What is a pusher leg Rock Drill?

They are robust designed, with high impact energy and low air consumption. All of the rock drills have water flushing, rifle bar rotation and the pusher leg control is placed at the back head of the rock drill. Rock drilling tools manufacturer ProDrill: Model No. YT28 Pusher Leg Rock Drills are applied for underground mining, drifting.

What is a yt28 pusher leg rock drill used for?

Rock drilling tools manufacturer ProDrill: Model No. YT28 Pusher Leg Rock Drills are applied for underground mining, drifting. YT28 Air-leg Rock Drill most fit for drilling horizontal and inclined blast holes in medium-hard and hard rock with a hardness of $f=8\sim 18$. It may also be used with for making roof-bolting holes.

What is a yt29a air leg Rock Drill?

For more details please click PDF: Y29A air leg rock drill operational manual The YT29A rock drill is the most rugged, powerful and highly efficient rock drill in the range. It provides improved productivity and drill steel economy and can be used on all rock formations and in various applications.

What are yt29a pusher legs & Stoper rock drills?

Equipment YT29A pusher legs and stoper rock drills cover all construction, tunnelling and mining applications in different rock formations. They are robust designed, with high impact energy and low air consumption. All of the rock drills have water flushing, rifle bar rotation and the pusher leg control is placed at the back head of the rock drill.

How is a femoral tunnel drilled?

Once satisfactory pin placement is confirmed through arthroscopic visualization, the aiming guide and bullet are removed. The femoral tunnel is then drilled, starting with a 6.5- or 7-mm standard reamer and advancing in 2- to 2.5-mm increments up to the final tunnel size.

What is a drill leg & how does it work?

It is designed for underground drilling only. This ensures stabilized operation through a wide range of drilling angles. Moreover, the leg absorbs the drill vibrations so effectively that the operator can use it for many hours of fast drilling operation without excessive fatigue.
