

Turpan Engineering Water Mill Drilling Rig Company

Who is Turan drilling & engineering company?

Turan Drilling & Engineering Company, a joint venture (JV) firm between KCA Deutag and SOCAR AQS, has secured a \$500m contract from BP Exploration (Caspian Sea) in Azerbaijan. The scope of the contract involves operations and maintenance services of seven BP-operated platform drilling rigs in the Caspian Sea.

Why did SOCAR AQS form a Turan drilling & engineering JV?

As part of its ongoing international development goals and expanding its capacity to deliver complex onshore and offshore drilling projects while maintaining significant cost efficiency, SOCAR AQS, together with KCA Deutag, formed a Turan Drilling & Engineering JV in 2018.

Where are drilling rigs made?

Most new onshore rigs, both drilling and work over rigs, are built by OEMs in China. In the US, the larger vertically integrated land drillers have in-house manufacturing operations, so they will outsource some equipment construction, but assemble the new rigs at their own facilities.

How many land drilling rigs are there in Texas?

In Texas, generally considered to be the centre of US land drilling, RigData reports that there are currently 678 active rigs - split between Helmerich & Payne (160), Patterson-UTI (85), Nabors (64), Precision Drilling (39) and 77 other drillers (330). The Market For Land Drilling Rigs & The Companies Manufacturing Them

What is land drilling?

The practice of "land drilling" (or "onshore drilling") refers to the drilling of oil and gas (O&G) wells on land (as opposed to offshore drilling).

How is the land drilling market structured?

The land drilling market worldwide is structured primarily as a rental market, not a sales market, where land drilling companies lease their rigs to E&P companies for an agreed period of time - weeks, months, or years - at a day-rate. The rigs are then used to drill wells and execute the E&P's drilling programs.
