

Water well drilling rig anchor installation video

How do you run anchors on a rig?

Anchors will be run using either a course heading and distance from the rig or using preset buoys. The Rigmove must keep in mind that the distance and bearing to the anchors will be different for each of three positions. It is best to start with a drawing which places the rig in the final position and draw in the required anchor positions.

Can I drill my own water well by hand?

Our most popular video for those who are interested in drilling their own water well by hand.
