

Which UK engineering survey drilling rig is best

What types of site investigation drilling services do you offer?

We offer a comprehensive and versatile range of site investigation drilling services. Our site drilling techniques include windowless sampler boreholes, cable percussive boreholes, rotary cored boreholes, rotary auger boreholes, window sampler boreholes, diamond drilling and concrete coring.

What types of geotechnical drilling & sampling services are available?

Our geotechnical drilling and sampling services include trial pitting, overwater work, sonic drilling and more. Benefit from our range of rigs, dynamic sampling and rapid data capture.

What is a Multipurpose drilling rig?

A truly multipurpose drilling rig incorporating a pullback capacity of 10,000kg within a lightweight and compact structure. Perfect for water well, mineral exploration, geotechnical and GSHP drilling. Compact, versatile geotechnical drilling rigs capable of a wide range of rotary and percussive drilling techniques for site investigation.

What is a drill rig?

A small 1-tonne rig capable of drilling up to 12m in soft soils using a duplex-cased dynamic sampling system. Operated by a two-person crew, it is a great way of rapidly forming site investigation boreholes. Self-propelled rubber track-mounted rig. Min. access width 0.9m. Min. working height 3.0m.

What types of drilling rigs are available?

Various multi-functional drilling rigs available from 3 tonne to 15 tonne (maximum weight). Rotary Open Hole to a maximum depth of 100 metres. Rotary Core from 76mm up to 100mm. Drilling mediums: Water, mist, mud or foam as per client requirements. Dynamic Sampling: SPT's and CPT's. Rotary Percussive Drilling.

What rigs can be used to drill a borehole?

The rigs are capable of drilling boreholes using conventional rotary coring and wireline Geobor S, up to 100m in depth. With in-situ calibrated standard penetration testing (SPT) and undisturbed sampling (U70, U100 and UT100). Class 1 samples (EN ISO 22475-1) can be prepared from the core by one of our engineering geologists.

Our geotechnical drilling and sampling services include trial pitting, overwater work, sonic drilling and more. Benefit from our range of rigs, dynamic sampling and rapid data capture.

For over 20 years Strata Geotechnics has provided high quality Ground Investigation and Foundation Testing services throughout the UK. Focusing on the production of quality data, ...

Which UK engineering survey drilling rig is best

We have a fleet of offshore drilling rigs which can be operated from our dedicated drill ships and can also be mobilised onto vessels of opportunity or client ...

With a fleet of over 60 drilling rigs including mini-rigs, geotechnical rigs and "dual head" rigs we can offer a broad range of drilling services and drilling techniques to suit any application. Our ...

Rig capabilities & specifications Our rigs are owned, operated and maintained in-house from our facilities in Gloucester. Each of the rigs has its own ...

Derrick Services (UK) Limited - DSL - supports the Upstream Sector of the Industry, Worldwide, for all services associated with offshore and onshore drilling structures. Including, but not ...

With unmatched technical and global experience, RigQuip offers rig packages, maintenance and drilling equipment parts to customers worldwide.

The document replaces the former UKOOA Guidelines for conduct of mobile drilling rig site surveys, version 1.2, and Guidelines for conduct of mobile drilling rig site investigations in deep ...

Our geotechnical drilling and sampling services include trial pitting, overwater work, sonic drilling and more. Benefit from our range of rigs, dynamic sampling ...

The Keeper gyro survey system is designed to provide increased flexibility across a range of survey applications using a single sensor. It boasts high-speed capabilities, enabling close ...

ADC Energy provides drilling rig inspection services & new build offshore wind vessel assurance to the international energy industry.

Our in-house capabilities include a range of drilling services, in-situ testing and monitoring, soil and rock testing, geotechnical and geoenvironmental engineering services and advice.

GeoSonic's Sonic rigs can offer continuous soil samples (presented in either flexible plastic liner bag or semi-rigid plastic liners) recovered by means of Sonic Drilling. A full range of ...

Our in-house capabilities include a range of drilling services, in-situ testing and monitoring, soil and rock testing, geotechnical and geoenvironmental ...

W Duddridge Engineering is proud to be your premier provider for the sales and servicing of a comprehensive range of high-quality drilling rigs. Our ...

Which UK engineering survey drilling rig is best

The engineering drilling rig is a new type of shallow hole drilling rig suitable for engineering geological exploration and core drilling. It has the characteristics of large power, high speed ...

We partner with drilling contractors to elevate safety & operational excellence. We invest in our people and relentlessly explore new technologies and ...

Rig Survey International performs professional, independent surveys and inspections on all types of land and offshore drilling rigs and support vessels. We deliver an in-depth, risk-based ...

Site Investigation Services GB Land Engineering Limited (GBLE) offer geotechnical investigations to all geo-environmental consultants as well as public and private sector clients. GBLE have ...

Well Drilling UK Ltd is one of the UK's leading water borehole drilling companies. With over 35 years experience, we have drilled countless water boreholes and wells and have installed ...

Compact, versatile geotechnical drilling rigs capable of a wide range of rotary and percussive drilling techniques for site investigation.

Dynamic Sampling, based in Derby and Newcastle Under Lyme, UK, was formed in 1989 and is a provider of site investigation drilling services throughout the UK.

Selecting The Best Rig, Platform, Or Installation For Your Project Is A Foundation For The Success Of Your Drilling And Production Operations Athens Group ...
