

Wuchuan Oil-free Screw Air Compressor Manufacturer

Is CMN the world's first oil-free screw air compressor?

With continued R&D investment, CMN, the screw air compressor manufacturer in China, has launched the world's first 40-bar oil-free screw air compressor with a water-lubricated air end and the world's first 1.2 MPa scroll air compressor, which filled an international gap.

Why should you choose CMN as an industrial air compressor supplier?

In 2015, CMN, as an industrial air compressor supplier, unveiled the world's first 40-bar pressure oil-free screw air compressor, showcasing our commitment to innovation. Currently, our facility for industrial screw compressors in China spans nearly 58,000 square meters, employing over 100 dedicated professionals.

Which is better oil free or oil lubricated air compressor?

Oil-free air compressors have a smaller footprint and require less maintenance than oil-lubricated air compressors. Although oil-lubricated air compressors are more expensive and heavier than oil-free air compressors, they are also ideal for stationary use.

What is an oil-free air compressor?

An oil-free air compressor also means less maintenance, as it doesn't need oil to work. This type of air compressors also features fewer moving parts, which means fewer places for problems to develop. All oil-free air compressors are manufactured to meet ISO Class 0 and 1 air purity standards.

Why are oil lubricated air compressors more expensive?

There are several reasons why oil-lubricated air compressors are more expensive than dry-type air compressors. First of all, oil-lubricated air compressors tend to be more reliable and quiet. Additionally, oil-lubricated air compressors require fewer parts and can last longer than dry-type air compressors.

Which air compressor makes a good noise?

The CZPT EC28M Quiet Air Compressor is another model that features quiet operation. This air compressor makes 59dB of noise. This level is low enough to allow you to carry on normal conversations while it cycles. In addition, this compressor has an industrial oil-free pump and a 2.8 Amp direct-drive induction motor.
