Who is rig source?

Whether you're dealing with challenging drilling conditions, looking for rig repair, or needing spare drilling tools, Rig Source is the trusted partner you can count on to deliver the right parts at the right time. For more information on our Parts and Service offerings - contact us below or give us a call at 630.415.1601.

What parts do drilling rigs need to be replaced?

Drilling equipment undergoes significant stress, leading to the wear of certain components. At AGA Parts, you will find spare parts for drilling rigs that most often need replacement: Drill rods - a key element of the drilling rig that wears out from constant contact with rock. Bits and crowns - wear out when interacting with hard materials.

Does rig source offer drill rig tooling packages?

We also offer drill rig tooling packages for direct push, geotechnical, hollow stem auger, core, and rotary drilling rigs, ensuring you get only the highest quality parts. Downtime costs you money, and no one understands that more than Rig Source.
