

Yt28 rock drill power requirements

What is a yt28 pusher leg rock drill used for?

Rock drilling tools manufacturer ProDrill: Model No. YT28 Pusher Leg Rock Drills are applied for underground mining, drifting. YT28 Air-leg Rock Drill most fit for drilling horizontal and inclined blast holes in medium-hard and hard rock with a hardness of $f=8\sim 18$. It may also be used with for making roof-bolting holes.

Is yt28 suitable for drilling rocks?

YT28 is suitable for drilling rock with a hardness of $f=8\sim 18$. Page 4 Air-Leg Specifications Weight Length Feed Length Model (Kg) (mm) (mm) FT160 1668 1338 Installation and Lubrication Size air supply line to ensure tool's maximum operating pressure (P_{MAX}) at tool inlet.

What is yt28 air-leg rock drill used for?

YT28 Air-leg Rock Drill most fit for drilling horizontal and inclined blast holes in medium-hard and hard rock with a hardness of $f=8\sim 18$. It may also be used with for making roof-bolting holes. The drill is an important instrument in mining, railway, communication and water conservancy projects.

Which lubricator is used in Rock Drill yt28?

The Rock Drill is equipped with lubricator FY200C. Secoroc YT28 is intended to be used together with pusher leg FT160BC and FT160BD for different tunneling and work conditions. It is also designed for dry drilling or wet drilling mounted on rigs. Specification Pneumatic rock drill YT28

What is secoroc yt28?

Scope of application Secoroc YT28 is a heavy-duty pusher leg rock drill featuring high efficiency and low air consumption. It is primarily designed for drilling in mines, hydropower stations, and road construction projects. It is also a new product suitable for tunneling and other stone works in mining and metallurgical industry.

How deep is a secoroc yt28 hole?

Secoroc YT28 is suitable for both horizontal and upward anchor holes in medium-hard and hard rocks ($f=8\sim 18$). The hole diameter range is from 32 mm to 42 mm with depths up to 5 meters. The Rock Drill is equipped with lubricator FY200C.

The YT28 Pneumatic Air Leg Rock Drill Machine is a high-performance tool designed for breaking hard rock in mining, construction, and demolition. Its pneumatic power source ensures reliable ...

In order to meet the diverse requirements of our customers, we are committed to providing quality assured rock drill machinery. Our rock drills are fully ...

Experience unmatched power and precision with durable yt28 pneumatic hand hammer rock drill designed for

Yt28 rock drill power requirements

effortless drilling. Ideal for professionals seeking efficiency and reliability.

The YT28 air leg rock drill is most suitable for dry drilling downward and inclined blast holes in medium hard and hard rock with a hardness of F8-18. An ideal ...

The Hammer Drill YT28 makes drilling into rock to lay pipelines, install power cables, or create foundational supports. Its durability and power, particularly for solid material, serve ...

YT28 Air-leg Rock Drill most fit for drilling horizontal and inclined blast holes in medium-hard and hard rock with a hardness of $f=8\sim 18$. It may also be used with for making roof-bolting holes. ...

A pusher leg rock drill is a type of pneumatic (air-power) rock drill for mining, tunneling, and other construction applications where require drilling in rock.

Manuals and User Guides for Ingersoll-Rand YT28 Pneumatic Rock Drill. We have 1 Ingersoll-Rand YT28 Pneumatic Rock Drill manual available for free ...

Our pusher legs and stoper rock drills cover all construction, tunnelling and mining applications in different rock formations. They are robust designed, ...

In order to meet the diverse requirements of our customers, we are committed to providing quality assured rock drill machinery. Our rock drills are fully equipped to ensure a durable product life, ...

The YT28 rock drill is a pneumatic, handheld drilling tool commonly used for underground mining and tunneling. It utilizes rotational and impact motions powered by compressed air. The air leg ...

Product Safety Information Intended Use: Model YT28 Air Percussive Rock Drills are mainly used for tunnelling work in mines and drilling holes in medium and hard rock. They are also ...

Scope of application YT28 is a heavy-duty pusher leg Rock Drill featuring high efficiency and low air consumption is primarily designed for drilling in mines, hydro-power stations, and road ...

Product name: Pneumatic air leg rock drill yt28 air leg rock drill; Color: Customers Requirements; Application: Multifunction; Function: Drilling Milling Machining; Applicable ...

Increase operational efficiency in mining with cutting-edge yt28 quality rock drill that meets the demands of tough conditions and sustained usage.

Applications: Most fit drilling horizontal and inclined blast holes in medium-hard rock with a hardness of $f=8\sim 18$. It may also be for making roof bolting holes. The drill is an important ...

Yt28 rock drill power requirements

YT29A/YT28 pneumatic rock drills for mining drilling, tunneling, high power, and stability #SHENLI Apex · Far Out 104 Dislike

Secoroc YT28 is a heavy-duty pusher leg rock drill featuring high efficiency and low air consumption. It is primarily designed for drilling in mines, hydropower stations, and road ...

Rock Drill YT28 Product Description: The Products are mainly used in construction sites, various types of mines, railways, water conservancy ...

Product details Introducing the YT24 YT27 YT28 Pneumatic Portable Drilling Machine, a powerful hand-held rock drill designed for efficient and effective drilling in mining and construction ...

YT28 is a kind of rock drill of high efficiency which is widely used to drill blast holes in rock tunneling and drilling work. It is suitable for drilling on medium hard and hard rock (f=8~18). ...

Features and Benefits of the YT28 Rock Drill Before we dive into where to buy the YT28 Rock Drill, let's first explore its key features and benefits. The YT28 Rock Drill is known for its high - ...

YT28 Air- Leg Rock Drill Application: Most fit drilling horizontal and inclined blast holes in medium-hard rock with a hardness of f=8~18. roof bolting holes. The drill is an important instrument in ...

The YT28 rock drill is a highly versatile air leg rock drill, primarily used for rock drilling in tunnel projects and mine tunnel excavation. It is compatible with the FY200C oiler and the FT160BC ...

Perforadora YT28 Especificaciones Air Leg Rock Drill, por lo general, llamamos YT Series Rock Drill. La Perforadora YT28 siempre funciona con soporte de ...

YT28 is a kind of high efficiency air-leg rock drill, which is mainly used in mine exploitation, railway, highway, tunnel excavation, water conservancy construction and defence project facility.
