

## Zigong rock drill

Why is Zigong called Zi & Gong?

The words 'Zi' and 'Gong' come from the names of two salt wells: Ziliu Well and Gong Well. Visitors can see various drilling tools and the well salt production technology in the Zigong Salt History Museum. Zigong is also known as the hometown of dinosaurs as many dinosaur fossils have been found in this city.

What is Zigong known for?

The old 'Salt' city is based on industry and farmland and a new 'Tourism' city which caters primarily to Chinese tourists (as Zigong is better known within mainland China). Zigong is host to the Sichuan University of Science and Engineering as well as a new High Technology Zone. Salt was once one of the major sources of revenue for China.

Where is Zigong located?

Zigong is located in the central Chinese Sichuan province, which was a large basin, surrounded by mountains on three sides and therefore somewhat isolated. Before refrigeration was available salt was a key chemical used in preserving vegetables, meat, and fish.

Is Zigong a new city?

The new city of Zigong has been modernizing since the late 1970s - but more rapidly since the early 1990s. The old 'Salt' city is based on industry and farmland and a new 'Tourism' city which caters primarily to Chinese tourists (as Zigong is better known within mainland China).
